Breast MRI Coding Gets an Overhaul in 2019

CPT® coding for breast magnetic resonance imaging (breast MRI) has changed completely for 2019. Although we cannot yet report on the final codes and guidelines, information about the changes has surfaced after the AMA announced its release of the new CPT® code set on September 5. [Read More.](#)

GEMs Files Bow Out for 2019

If you're one of the medical coders who has been looking forward to perusing the 2019 GEMs files, you're going to be pretty disappointed. The GEMs files have seen their day. [Read More.](#)

Fine Needle Aspiration Coding Updated for 2019

CPT® coding for fine needle aspiration, or FNA, will change dramatically for 2019. Details of the changes have begun to trickle out after the AMA announced its release of the new CPT® code set on September 5. [Read More.](#)

Find It in the Knowledge Center

The healthcare industry is a fast-paced, ever-changing business that never rests. Perpetual changes to federal regulations, code sets, and technology make it nearly impossible to stay up to date. But stay up to date we must to ensure compliance and receipt of proper reimbursement for healthcare services and supplies. If only there was one place you could turn to for answers — a place that spoke directly to your profession, without all the rhetoric ... a place like AAPC's Knowledge Center! [Read More.](#)
