#### **Process of Elimination**

#### Training covers the process of elimination:

- Look at the answers first.
- Are there key instructions or guidelines for the answers provided?
- Are there parenthetical statements for CPT® or "code first" statements?
- Typically can eliminate 2 answers immediately

#### **Time Management**

#### Just over 2 minutes per question

- Mark difficult questions and come back to them later
- Read the question first, and then the scenario
- No specific format for completion

5

#### Marking Your Books

- Underline main terms
- Highlight key points
- Write effective reminders, such as guidelines

### **Compliance and Regulatory / Business of Medicine**

CPC Review

AAPC

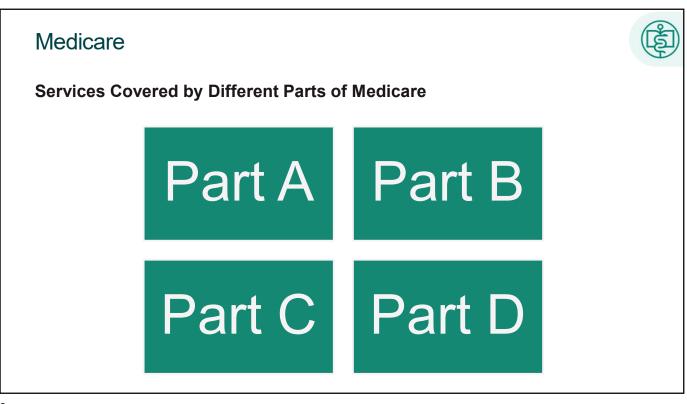

Copyright © 2022 AAPC

#### Payers

7

#### Self-Pay vs. Insurance

- Self-pay
- Insurance
  - Private (commercial) insurance
    - BCBS
    - Aetna
    - Cigna
  - Government insurance
    - Medicare
    - Medicaid
    - TriCare

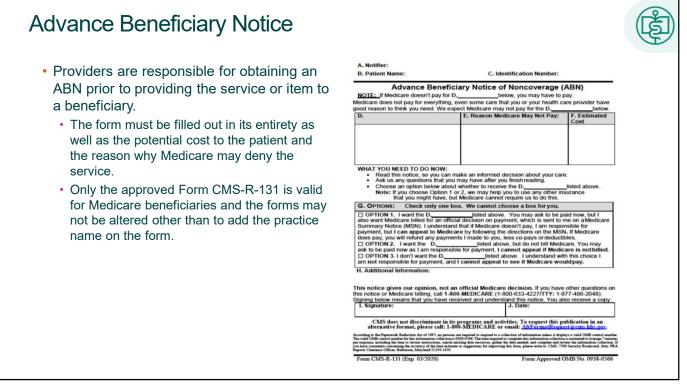

#### **Medical Necessity**

#### Services or supplies that:

- are proper and needed for the diagnosis or treatment of your medical condition,
- are provided for the diagnosis, direct care, and treatment of your medical condition,
- meet the standards of good medical practice in the local area, and
- aren't mainly for the convenience of you or your doctor.

#### National Coverage Determinations

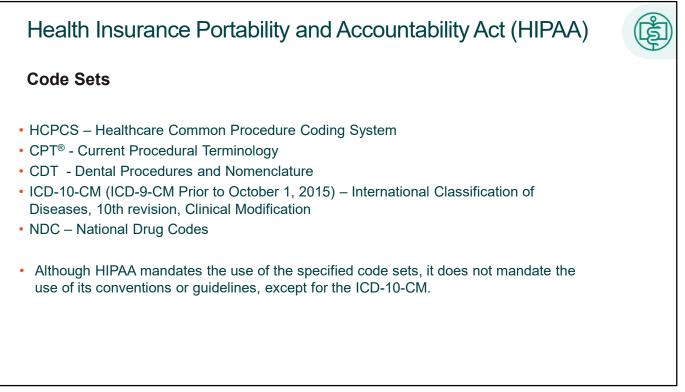

- National Coverage Determinations (NCD) help to spell out CMS policies on when Medicare will pay for items or services.
  - Each Medicare Administrative Carrier (MAC) is then responsible for interpreting national policies into regional policies (LCDs).
  - LCDs only have jurisdiction within their regional area.

#### HIPAA

- National standards for electronic healthcare transactions and code sets
- National unique identifiers for providers, health plans, and employers
- Privacy and Security of health data

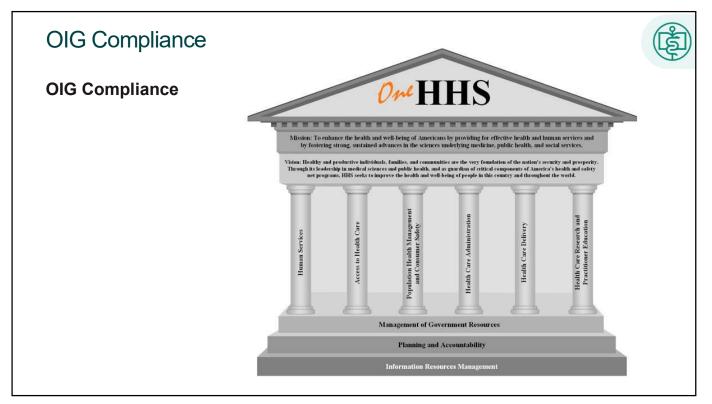

#### HITECH

#### The Health Information Technology for Economic and Clinical Health Act

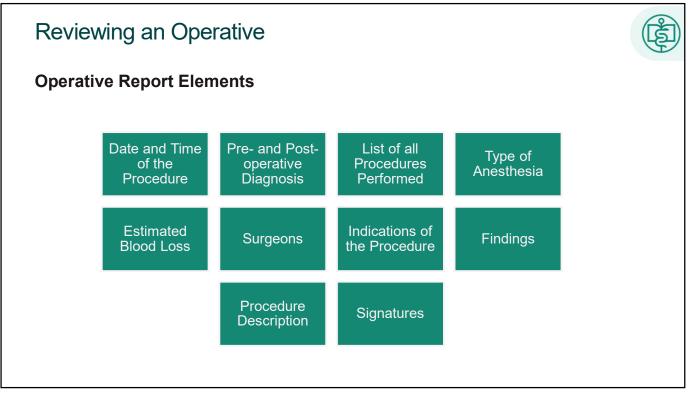

- Promote the adoption and meaningful use of health information technology
- Strengthened HIPAA
- Patient audit trail

#### **OIG Compliance Plan**

- Conduct internal monitoring and auditing.
- Implement compliance and practice standards.
- Designate a compliance officer or contact.
- Conduct appropriate training and education.
- Respond appropriately to detected offenses and develop corrective action.
- Develop open lines of communication with employees.
- Enforce disciplinary standards through well-publicized guidelines.

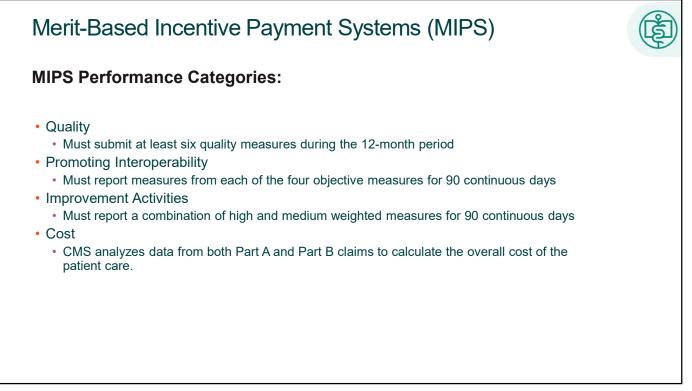

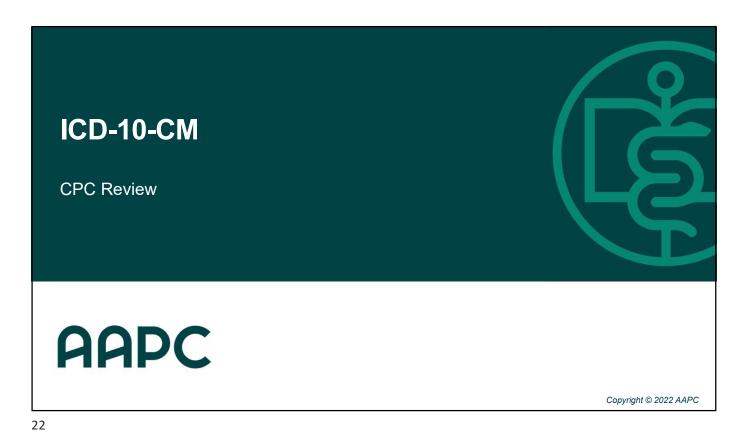

#### Merit-Based Incentive Payment Systems (MIPS)

- Eligible Clinicians
  - Physicians include: Doctors of chiropractic, dental medicine, dental surgery, medicine, optometry, osteopathy, and podiatric medicine.
- Exclusions
  - First year in Medicare
  - · Qualifying APM Participant
  - Do meet the low volume threshold
- Submitter Types
  - As an individual
  - Group, Virtual Group
  - As an APM entity

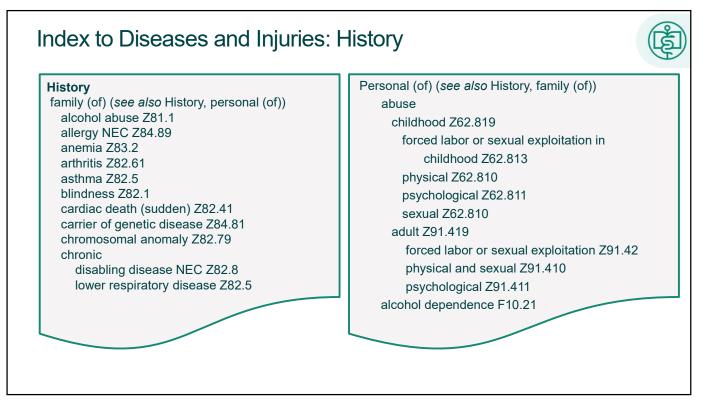

## Advanced Alternative Payment Models (APM) An APM is a group of clinicians who have voluntarily come together in an organized way to deliver coordinated high-quality care to Medicare patients. Advanced APM entities agree to: Use of certified EHR technology (Must be certified under 2015 criteria); Base payment on quality measures comparable to MIPS; and Either bear more than nominal risk for financial losses or is a Medical Home Model expanded under CMS Innovation Center authority.

#### ICD-10-CM Layout

- Coding Conventions
- Index to Diseases and Injuries (Alphabetic Index)
- Table of Neoplasms
- Table of Drugs and Chemicals
- Index to External Cause of Injuries
- Tabular List
- Official ICD-10-CM Guidelines for Coding and Reporting

#### Table of Neoplasms

Neoplasm Index	Malignant Primary	Malignant Secondary	Ca in situ	Benign	Uncertain Behavoir	U nspecified Behavior
Neoplasm, neoplastic	C80.1	C79.9	D09.9	D36.9	D48.9	D49.9
abdomen, abdominal	C76.2	C79.8-	D09.8	D36.7	D48.7	D49.89
cavity	C76.2	C79.8-	D09.8	D36.7	D48.7	D49.89
organ	C76.2	C79.8-	D09.8	D36.7	D48.7	D49.89
viscera	C76.2	C79.8-	D09.8	D36.7	D48.7	D49.89
wall (see also Neoplasm, abdomen, wall, skin	C44.509	C79.2-	D04.5	D23.5	D48.5	D49.2
connective tissue	C49.4	C79.8-	-	D21.4	D48.1	D49.2
skin	C44.509					

Substance	Poisoning, Accidental (unintentional)	Poisoning, Intentional self- harm	Poisoning, Assault	Poisoning, Undetermined	Adverse effect	Underdosing
1-propanol	T51.3X1	T51.3X2	T51.3X3	T51.3X4		
2-propanol	T51.2X1	T51.2X2	T51.2X3	T51.2X4

Abrine	T62.2X1	T62.2X2	T62.2X3	T62.2X4		
Abrus (seed)	T62.2X1	T62.2X2	T62.2X3	T62.2X4		
Absinthe	T51.0X1	T51.0X2	T51.0X3	T51.0X4		
beverage	T51.0X1	T51.0X2	T51.0X3	T51.0X4		
Acaricide	T60.8X1	T60.8X2	T60.8X3	T60.8X4		

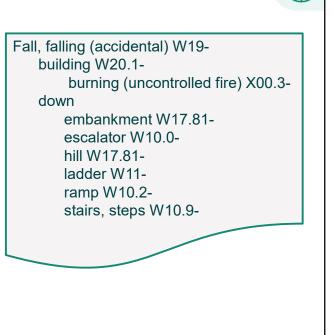

**External Cause of Injuries Index** 

External cause codes describe how an injury

Read the notes at the beginning of ICD-10-CM

Chapter 20 External Causes of Morbidity

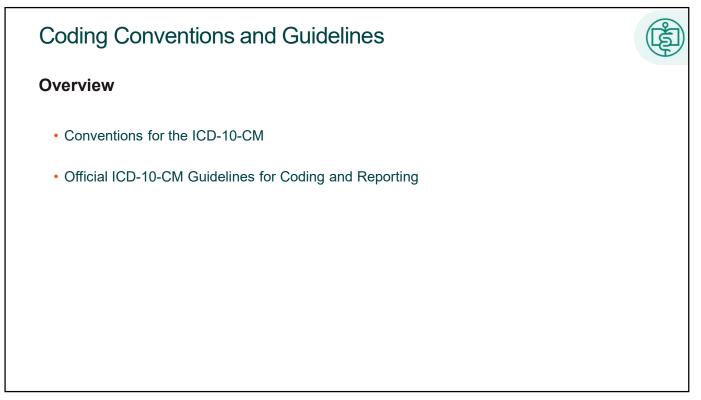

27

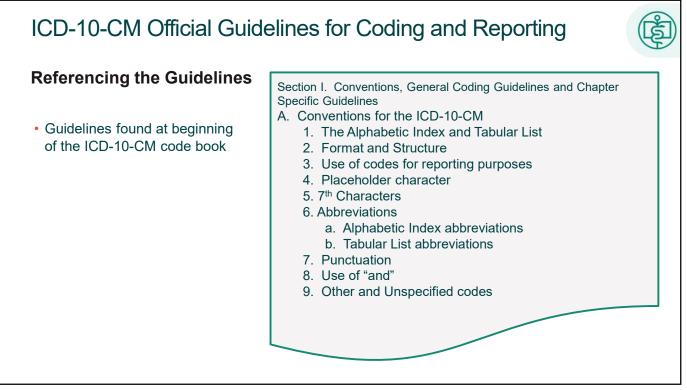

•

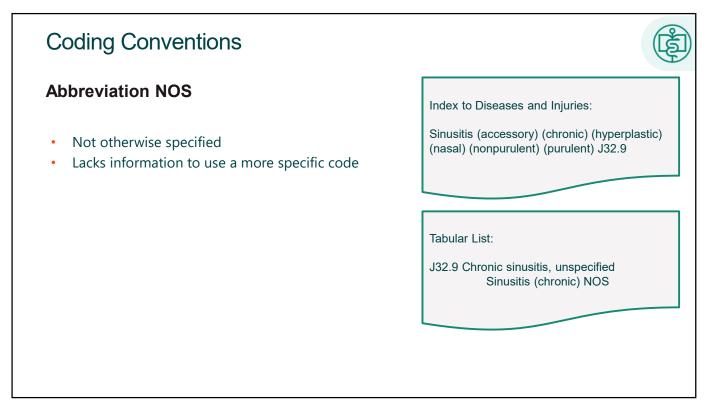

•

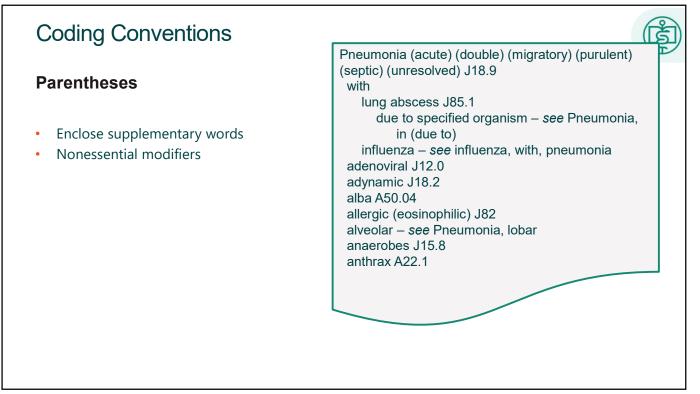

occurred

**NEVER** primary

#### **Coding Conventions**

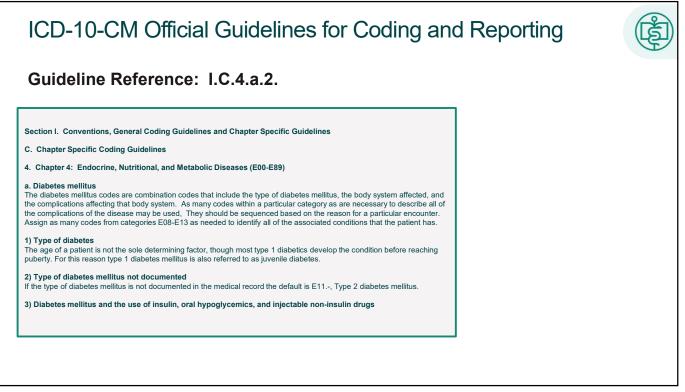

#### With

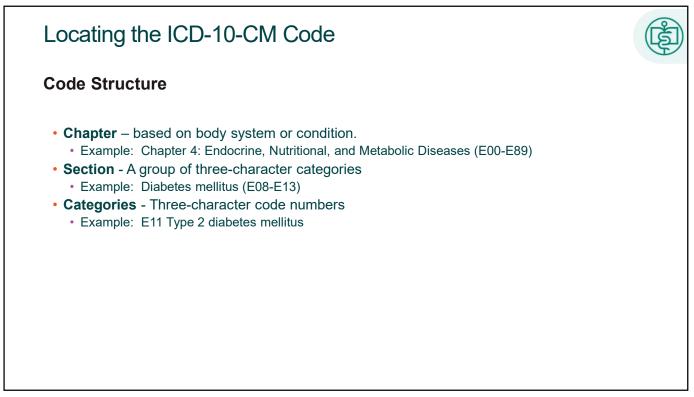

- Means "associated with" or "due to" when it appears in a code title, the Alphabetic Index, or an instructional note in the Tabular List.
- Presumed causal relationship between the main term and the terms listed under the entry "with."

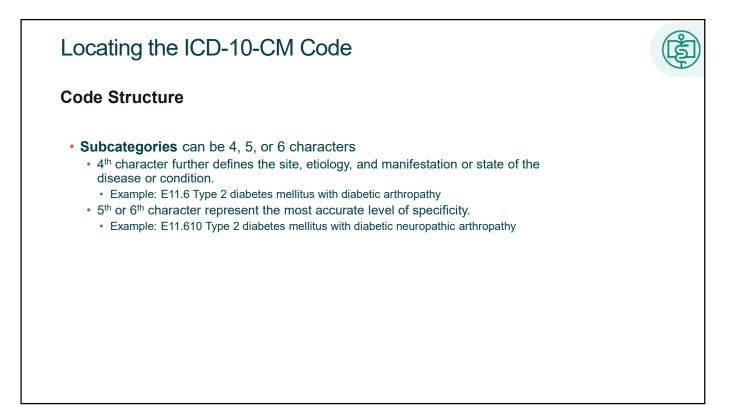

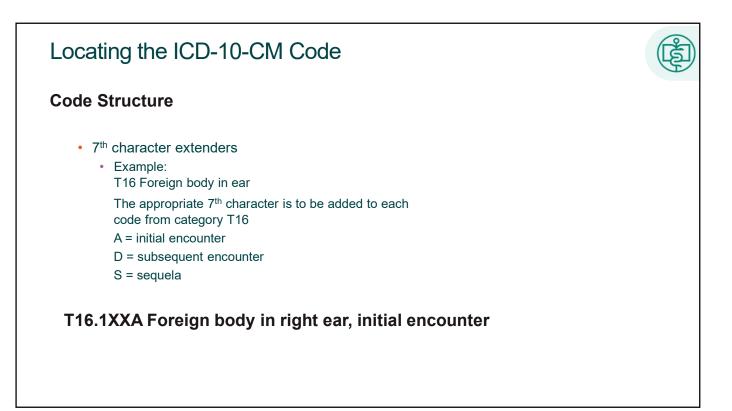

#### ICD-10-CM Official Guidelines for Coding and Reporting Referencing the Guidelines • A documented reference appears as Section I.C.4.a.2. • This indicates the guideline is found in: • Section I. Conventions, General Coding Guidelines and Chapter Specific Guidelines • Section I.C. Chapter-Specific Coding Guidelines • Section I.C.4. Chapter 4: Endocrine, Nutritional, and Metabolic Diseases (E00-E89) • Section I.C.4.a. Diabetes mellitus • Section I.C.4.a.2. Type of diabetes mellitus not documented

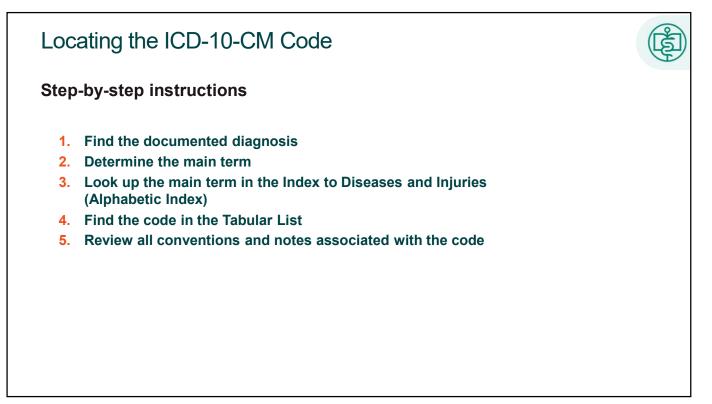

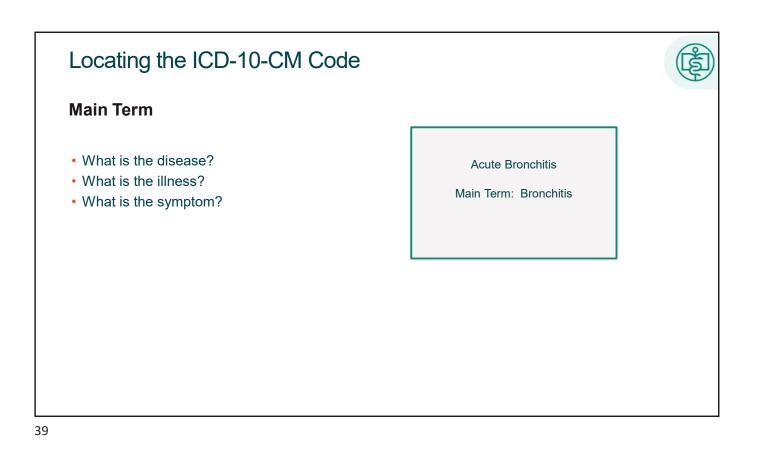

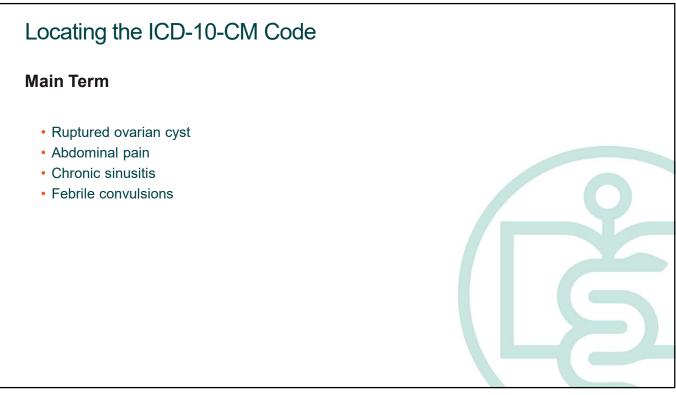

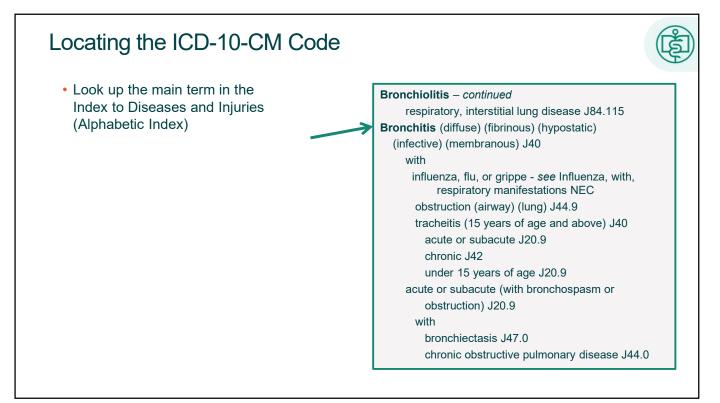

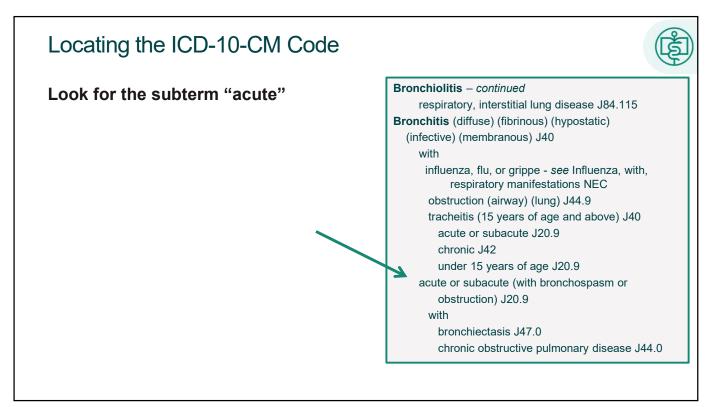

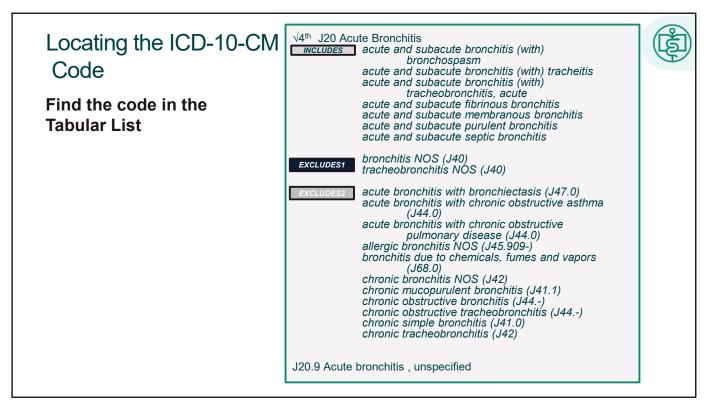

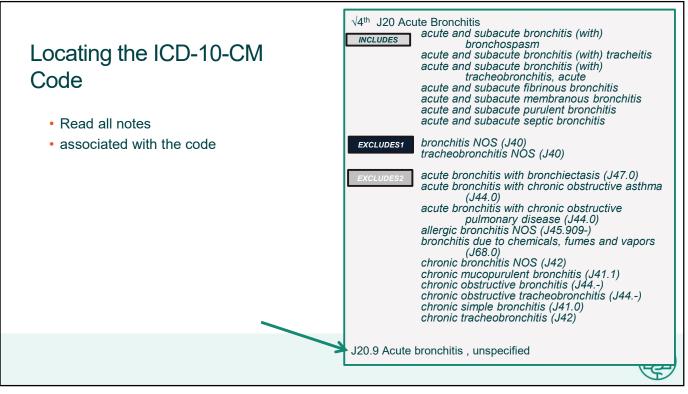

#### CPT<sup>®</sup>, Surgery Guidelines, HCPCS Level II, and Modifiers

**CPC** Review

## AAPC

Copyright © 2022 AAPC

45

## Introduction to CPT® • The CPT® code set includes three categories of medical nomenclature with descriptors. • Category I • Category II • Category III

#### Introduction to CPT®

#### Instructions for use of the CPT® code book

- Unlisted procedure
- CPT<sup>®</sup> use by any qualified healthcare professional
- Parenthetical notes
- Accuracy and quality of coding
  - · Related guidelines
  - Parenthetical instructions
  - Other coding resources

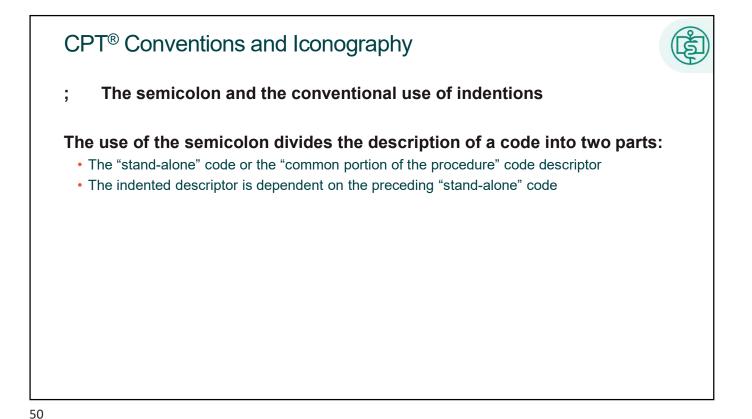

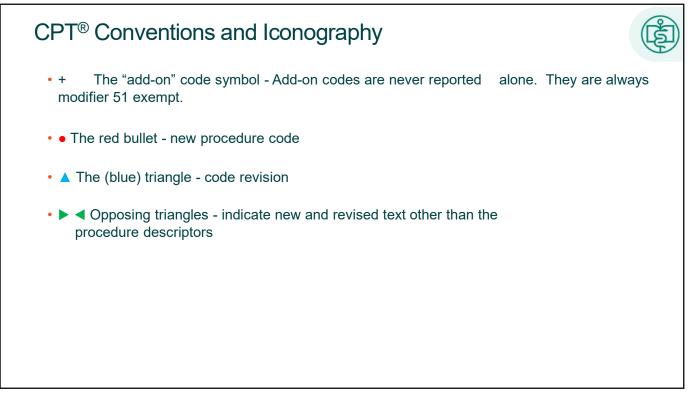

47

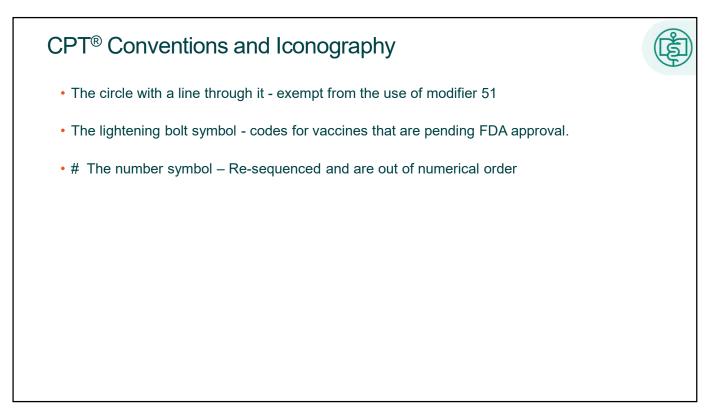

#### **CPT<sup>®</sup>** Guidelines

- Referenced in the introduction of each section and subsection of the CPT® code book
- Applicable to the section being referenced
- Define the information necessary for choosing the correct code

# CPT<sup>®</sup> Conventions and Iconography Used throughout the CPT<sup>®</sup> code book and include: Indentations Code symbols - iconology Parenthetical instructions

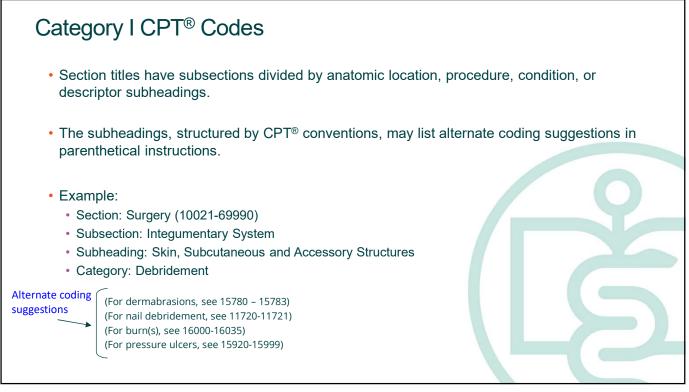

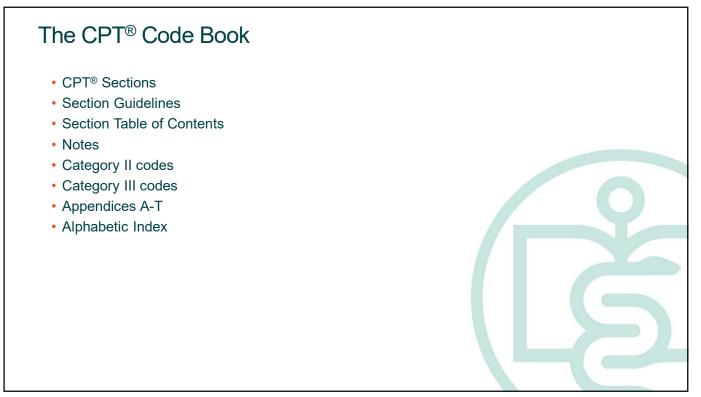

#### Category I CPT<sup>®</sup> Codes

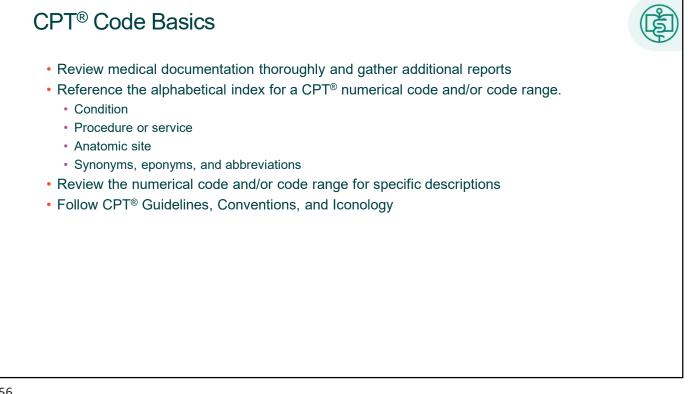

The CPT<sup>®</sup> code book divides Category I CPT<sup>®</sup> codes into six main section titles:

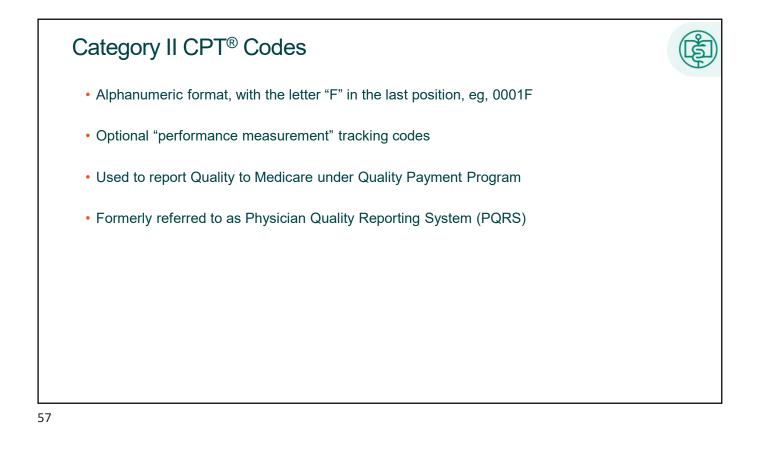

- Evaluation and Management
- Anesthesiology
- Surgery
- Radiology
- Pathology and Laboratory
- Medicine

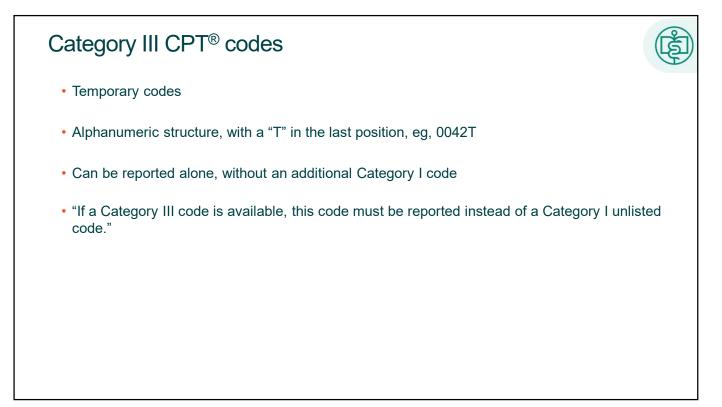

#### CPT<sup>®</sup> Appendices

#### Appendix A - Modifiers categorized:

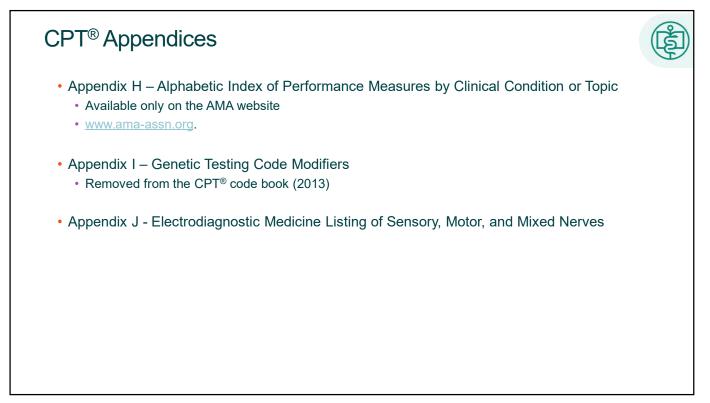

- Modifiers applicable to CPT<sup>®</sup> codes
- Anesthesia Physical Status Modifiers
- CPT<sup>®</sup> Level I Modifiers approved for Ambulatory Surgery Center (ASC) Hospital Outpatient Use
- Level II (HCPCS/National) Modifiers

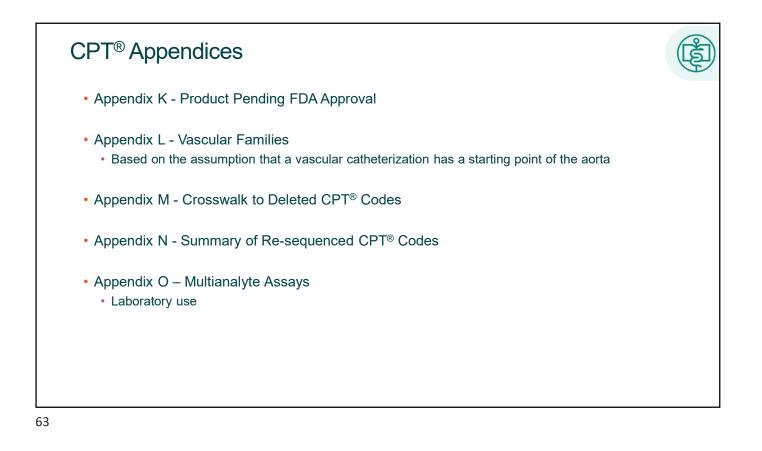

59

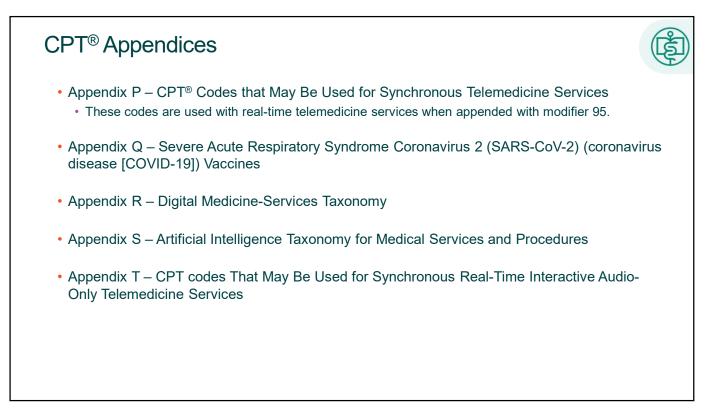

## CPT® Appendices Appendix B - changes and additions to the CPT® codes from the previous year Appendix C - clinical E/M examples for different specialties Appendix D – Add-on Codes

#### CPT<sup>®</sup> Appendices

- Appendix E Exempt from the use of modifier 51 (multiple procedures)
- Appendix F Exempt from the use of modifier 63 (procedures performed on infants less than 4kg)
- Appendix G Removed from the CPT<sup>®</sup> code book (2017).

#### National Correct Coding Initiative (NCCI)

- Implemented by CMS
- Promotes correct coding methodologies
- Controls the improper assignment of codes that results in inappropriate reimbursement

#### Medicare publishes CCI:

https://www.cms.gov/Medicare/Coding/NationalCorrectCodInitEd/index.html

#### Sequencing

#### **Based on RBRVS**

- Physician Work
- Practice Expense
- Professional Liability/Malpractice Insurance

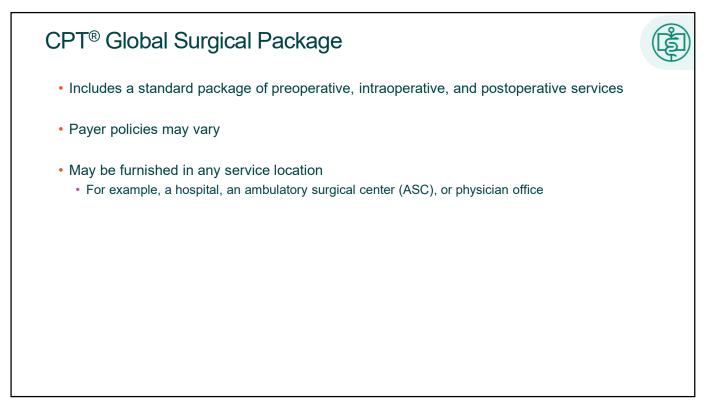

#### **Highest RBRVS listed first**

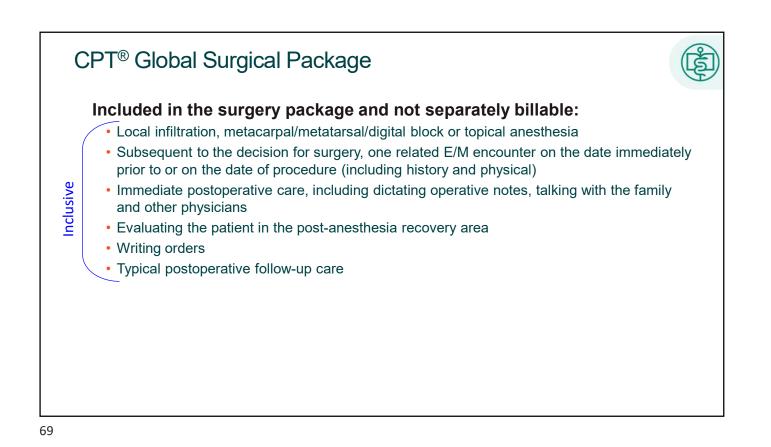

https://www.cms.gov/apps/physician-fee-schedule/overview.aspx

#### CPT<sup>®</sup> Assistant

- · Articles answering everyday coding questions
- CCI bundling information
- E/M billing guidance
- · Current code use and interpretation
- · Case studies demonstrating practical application of codes
- · Anatomical illustration charts and graphs for quick reference
- Information for appealing insurance denials
- · Information to validate code usage when audited

CMS Global Surgical Package	(B)
• Major Surgery: Has a preoperative period of 1 day with 90 days for the postoperative period	1.
<ul> <li>Minor Surgery: The preoperative period is the day of the procedure with a postoperative period of either 0 or 10 days depending on the procedure.</li> </ul>	

#### **HCPCS** Level II

#### **Types of Level II Codes**

- · Permanent National Codes maintained by the CMS HCPCS Workgroup
  - · Responsible for additions, deletions, revisions
  - Updated annually
- Temporary National Codes maintained by the CMS HCPCS Workgroup
  - · Responsible for additions, deletions, revisions
  - · Updated quarterly

# G Code

- Codes include:
  - Temporary codes
  - Some CMS service/procedure codes
  - CMS Quality Reporting codes

73

# HCPCS Level II

### G codes

- Professional healthcare procedures/services with no CPT® codes
- Example:
  - G0412 G0415 unilateral or bilateral
  - 27215 27218 unilateral only, use modifier 50 for bilateral

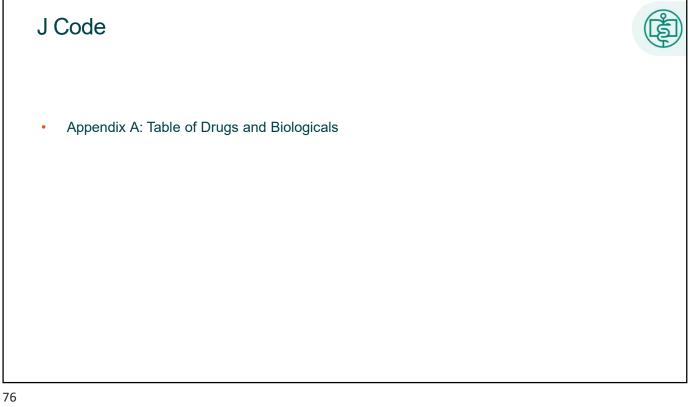

### **H** codes

 Used by state Medicaid agencies for mental health services such as alcohol and drug treatment services

# J Code

- J codes include drugs administered to patients. ٠
- Most codes list a specific dose per code. •
- Reporting concepts include: •
  - Amount of medication administered Quantity billing is common •
  - Route of administration (intra-arterial, intravenous, intramuscular, intrathecal, subcutaneous, inhaled, oral, etc...)
- Select the correct code for the correct route of administration.

# L Code

- Primarily orthotic and prosthetic supplies, devices and services
  - Coding concepts:
    - Product
    - Anatomic site
    - Number
    - Size

77

### Q Code Codes includes are temporary codes • Can be added, changed and deleted <u>quarterly</u> • • Coding concepts: Anatomic site • Number . Size Type of procedure • Patient age •

# S Code

•

- These codes are temporary national, non-Medicare, codes
- Coding concepts include:
  - Anatomic site
  - Number
  - Size
  - Age
  - Type of procedure

# HCPCS Level II

### **Appendices:**

- Table of Drugs
  - Names of Drugs, dosage, delivery method, J code
- Level II modifiers
  - May be used with some CPT® codes, i.e., LT/RT
- List of Abbreviations
- Medicare References
- Jurisdiction List
- Deleted Code Crosswalk
- (each publisher may have different appendices)

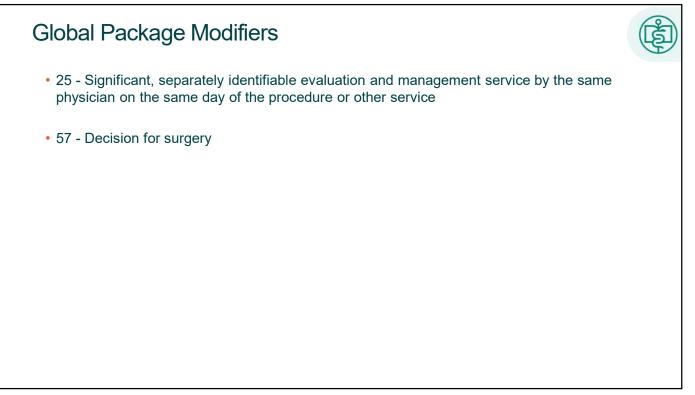

# Modifiers

### 22 – Increased Procedural Service

• Service provided is greater than that usually required for the listed procedure

### 24 - Unrelated E/M by the same physician during a postoperative period

# 6 Staged or related procedure or service by the same physician during the postoperative period 78 - Unplanned return to the operating/ procedure room by the same physician following initial procedure for a related procedure during the postoperative period 79 - Unrelated procedure or service by the same physician during the postoperative period

### 83

# Surgical Modifiers • 50 - Bilateral Procedure • 51 - Multiple Procedures • 52 - Reduced Services • 53 - Discontinued Procedure

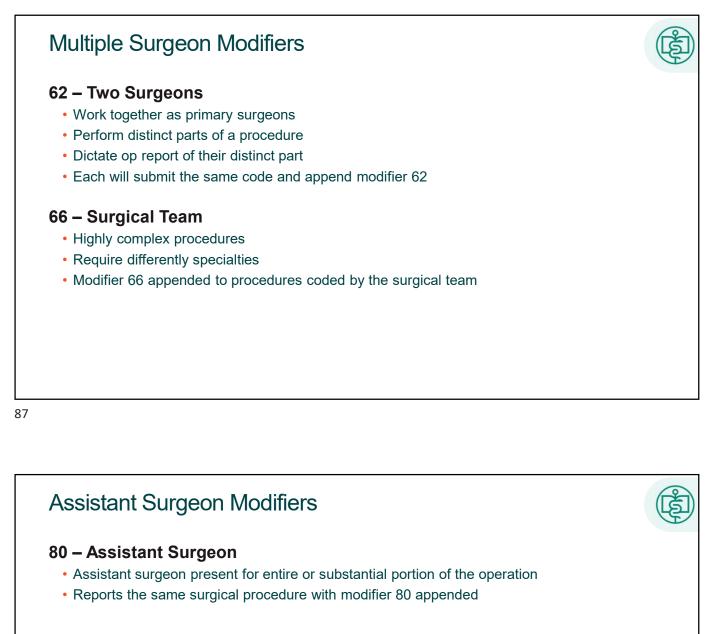

## Modifier 59 – Distinct Procedural Service

- Procedures not normally reported together
- Different Session or Patient Encounter
- Different Procedure or Surgery
- Different Site or Organ System
- Separate Incision/Excision
- Separate Lesion

### 85

# Modifier 59 – Distinct Procedural Service CMS provides a subset of modifier 59: XE - Separate Encounter, a service that is distinct because it occurred during a separate encounter; XS - Separate Structure, a service that is distinct because it was performed on a separate organ/structure; XP - Separate Practitioner, a service that is distinct because it was performed by a different practitioner; and XU - Unusual Non-Overlapping Service, the use of a service that is distinct because it does not overlap usual components of the main service.

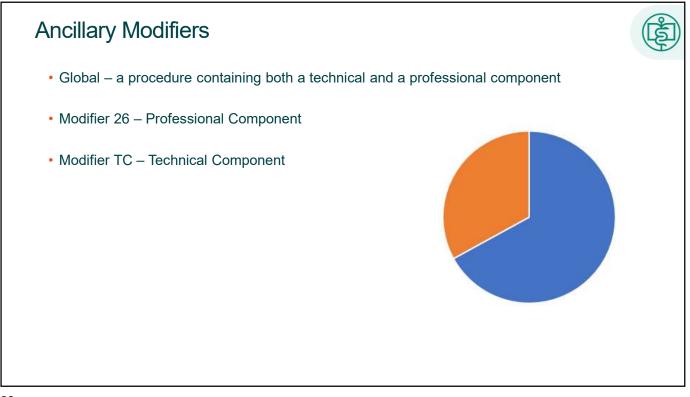

### 81 – Minimum Assistant Surgeon

- Circumstances present that require the services of an asst surgeon for a short time. Minimal assistance.
- · Reports the same surgical procedure with modifier 81 appended

### 82 - Assistant Surgeon (when qualified resident surgeon not available)

- Used in a teaching hospital that employs residents
- · No residents available and another surgeon is used

**CPC** Review

Copyright © 2022 AAPC

# Anatomy of the Skin

### Epidermis

- Top layer
  - Made up of 4-5 layers; function is protection

### Dermis

- Mid layer
  - Blood vessels, connective tissue, nerves, etc.

### **Subcutaneous Tissue**

Connective tissue and adipose tissue

91

# ICD-10-CM: Integumentary

- Chapter 2: Neoplasms
- Chapter 12: Diseases of the Skin and Subcutaneous Tissue
- Chapter 19: Injury and Poisoning

# ICD-10-CM: Integumentary

- Skin infections (bacterial and fungal)
- · Inflammatory conditions of the skin
- Other disorders of the skin
  - · Corns and calluses
  - Keloid scars
  - Keratosis

# Inflammatory Conditions of the Skin

### Erythema multiforme:

- Code for erythema multiforme
- Code associated manifestation
- Code percent of skin exfoliation (L49.0-L49.9)
- An additional E code if drug induced

### **Pressure Ulcers**

### Decubitus ulcers/bed sores

### Coding

- · Identify the location of the ulcer
- Identify the stage of the ulcer
- Ulcers present on admission but healed at the time of discharge, assign the code for the site and stage of the pressure ulcer at the time of admission
- Ulcers evolving to a higher stage, two separate codes should be assigned: one code for the site and stage of the ulcer on admission and a second code for the same ulcer site and the highest stage reported during the stay

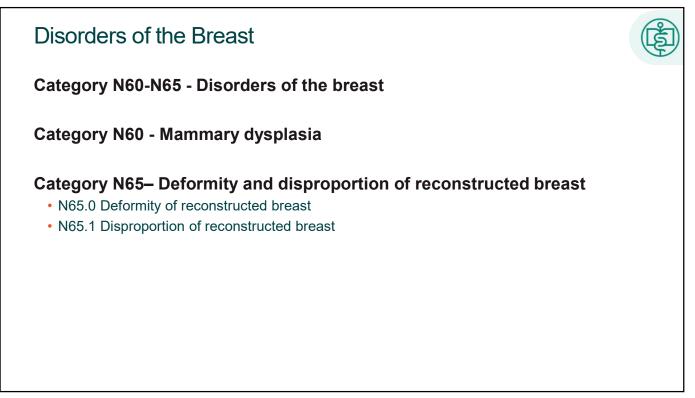

95

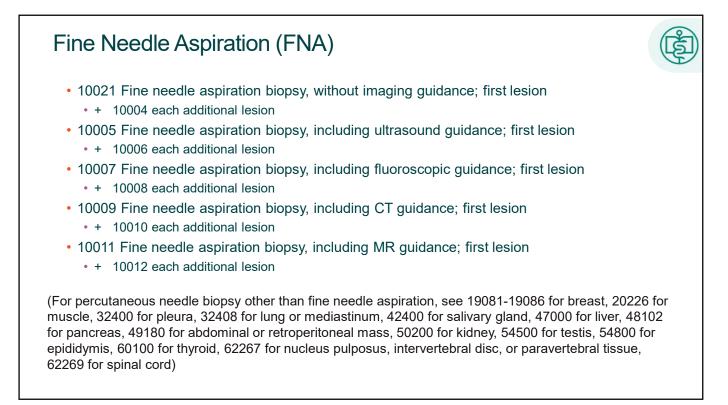

# Injury and Poisoning **Wounds**• Superficial injuries (abrasions, burns, blisters, insect bites, splinters) • Contusions (bruises, hematomas) • Open wounds (lacerations, punctures, open bites) Burns (fire, heat source, hot appliance) Corrosions (chemicals)

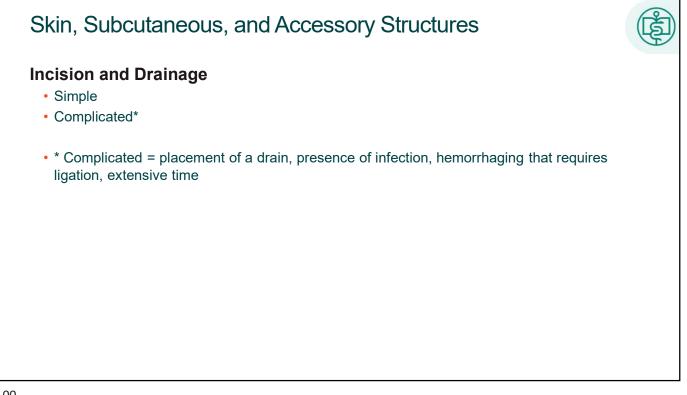

# Burns

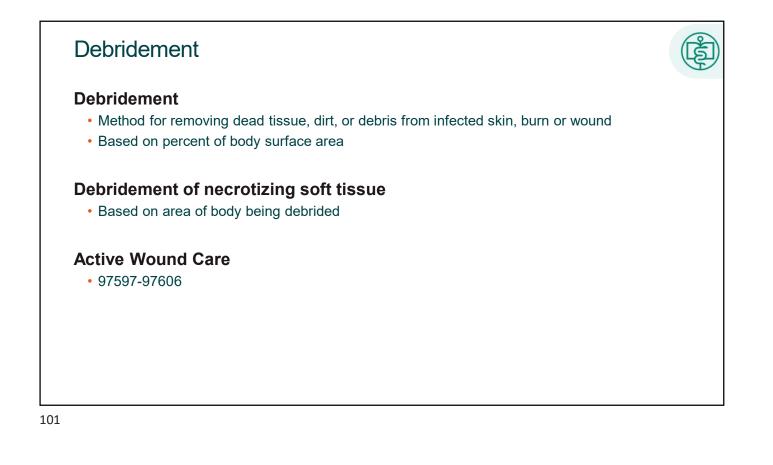

- Location
- Severity (degree) of burn
- Total Body Surface Area (TBSA)

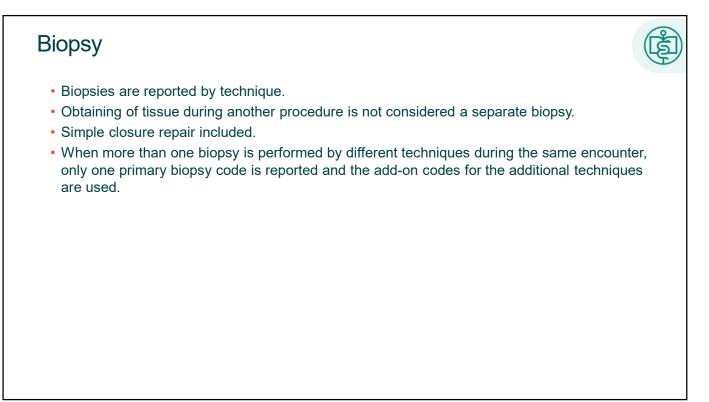

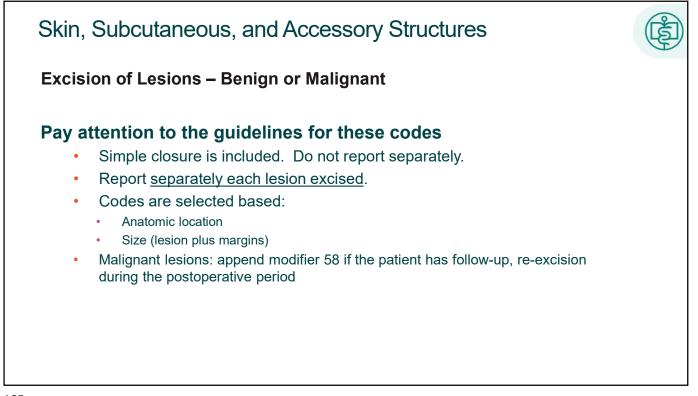

# Biopsy

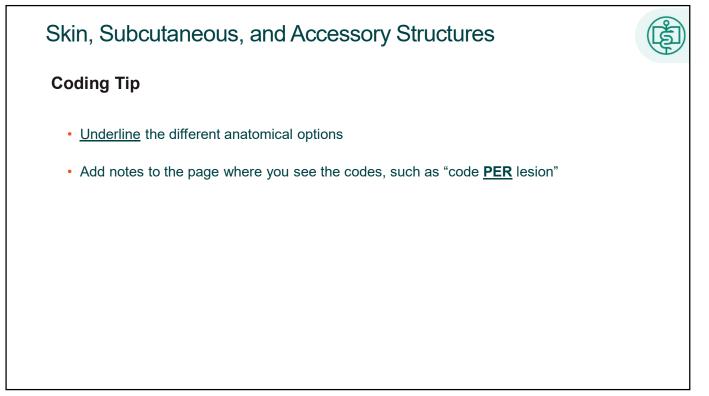

- **Tangential** (shave, scoop, saucerize, curette) is performed with a sharp blade, such as a flexible biopsy blade, obliquely oriented scalpel or curette to remove a sample of epidermal tissue
- Punch requires a punch tool to remove a full-thickness cylindrical sample of skin.
- **Incisional** requires the use of a sharp blade to remove a full-thickness sample of tissue via vertical incision or wedge
  - Remember simple closure is included in the biopsy codes.

### 103

# <section-header><section-header><section-header><section-header><section-header><section-header><section-header>

# Nails

- Fingernails and/or toenails
- Trimming or Debridement

### 107

# Integumentary System

### **Pilonidal Cyst**

- Coded according to complexity of excision
  - Simple
  - Extensive
  - Complicated

## Wound Repair

- Codes for wound closure using sutures, staples or tissue adhesive
- If only adhesive strips used, the service is coded using E/M only.
- Two important guidelines:
  - Measure and report size in centimeters (cm)
  - When MULTIPLE wounds are repaired, add together the lengths of those in the same classification (repair type) and same anatomic grouping. DO NOT add together lengths from different classifications.

109

# Wound Repair Definitions for types of wound repair are found in guidelines Simple repair – wound is superficial and requires single layer closure Intermediate repair – wound is deeper and requires layered closure of one or more deeper layers of subcutaneous tissue or superficial fascia. It includes limited undermining. It also includes a heavily contaminated wound that requires extensive cleaning or removal of particulate matter Complex repair – wound requires more than a layered closure, scar revision, debridement, extensive undermining, stents or retention sutures.

## Wound Repair

### **Book preparation tip**

- Make notes from guidelines on the pages where the codes are found:
  - Add together wounds by <u>type</u> and by <u>anatomical grouping</u>
- Underline or highlight the different anatomical groupings

111

# Adjacent Tissue Transfer

### Pay attention to the guidelines for these codes

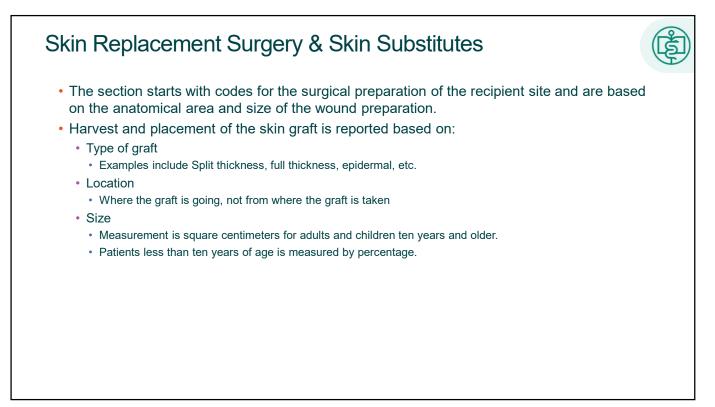

- These codes do not apply to direct closure or rearrangement of traumatic wounds.
- The excision of benign or malignant lesions is not separately reportable with Adjacent Tissue Transfer when done for the same lesion.
- Skin grafts necessary to close a secondary defect is separately reportable.

## Repair

### **Skin Replacement Surgery & Skin Substitutes**

- 15002-15005 based on size of repair and site
- 15040-15261 reported for autografts and tissue cultured autografts
- 15271-15278 reported for skin substitute grafts
- 15050 is pinch graft measured in centimeters
- · All other skin graft codes are determined by the size of the defect in square centimeters
- Square centimeters calculation length in cm x width in cm

# Destruction

### Ablation by any method other than excision

- Electrosurgery
- Cryosurgery
- Laser treatment
- Chemical treatment
- · Benign/premalignant based on number of lesions
- · Malignant lesion according to location and size in centimeters

115

# Destruction **Output Output <b>Output <b>Output Output**</

# Mohs Micrographic Surgery Mohs Micrographic Surgery Aemoval of complex or ill-defined skin cancer Physician acts as surgeon and pathologist Removes tumor tissues and performs histopathologic exam Repair of site may be reported separately Stage = each deeper layer of tissue removed Block = smaller pieces of each stage that will be examined for cancer

117

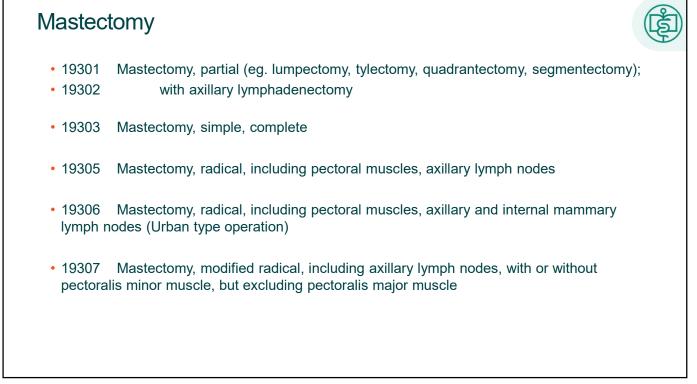

# Mohs Micrographic Surgery

### To report Mohs surgery:

- · Know the anatomic location
- Number of stages (how many layers of tissue removed)
- Number of blocks per stage (how many specimens were created from the layer)

## **Breast Biopsy**

- Performed as percutaneous or open.
- Codes are divided by type of imaging guidance (stereotactic, ultrasound, or magnetic resonance).
- Code per lesion biopsied

# 20,000 Series Musculoskeletal System

**CPC** Review

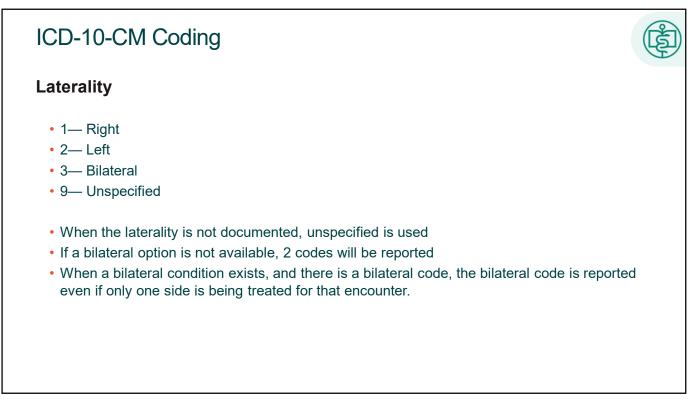

# AAPC

Copyright © 2022 AAPC

121

# Anatomy Skeleton • Axial • Appendicular

- Muscles assist with heat production and posture
- Ligaments attach bones to other bones
- Tendons attach muscles to bones
- · Cartilage acts as a cushion between bones in a joint

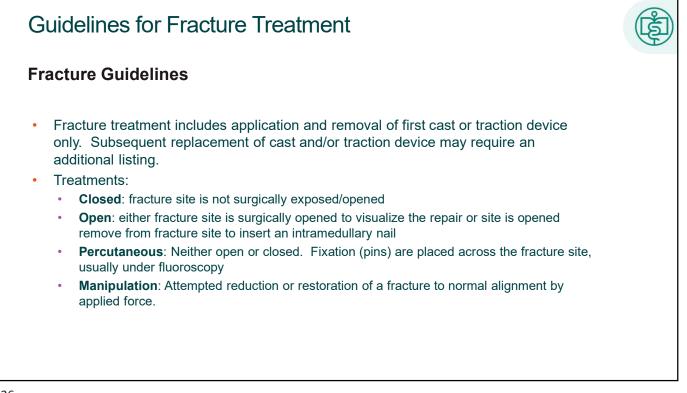

123

### Chapter 13

- Arthropathy pathology or abnormality of a joint
- · Dorsopathies disorders affecting the spinal column
- Rheumatism non-specific term for any painful disorder of the joints, muscles, or connective tissue
- Enthesopathies disorders of ligaments
- Bursitis inflammation of the bursa
- Pathological fractures

# Injury and Poisoning Sprains and Strains Fractures • Comminuted • Impacted • Simple • Greenstick • Pathologic • Compression • Torus or Incomplete

## **Fracture Coding**

### **Coding Note**

- Pay close attention to Fracture/Dislocation sections
  - 1. Treatment type Closed, Open, Percutaneous, Arthroscopic
  - 2. Bone treated

# Musculoskeletal System "General" subheading • Many different anatomic sites Other subheadings • Divided by anatomic site, procedure type, condition and description • Incision, excision, introduction or Removal, Repair, Revision and/or Reconstruction, Fracture and/or dislocation, Arthrodesis, Amputation

# Wound Exploration

- Used for wounds resulting from a penetrating trauma.
- Describe surgical exploration and enlargement of wound, extension of dissection, debridement, removal of foreign body, ligation of minor blood vessels.
- No thoracotomy or laparotomy is done. If those approaches are necessary, report those codes, not these.
- Wound repair is separately reportable.

### General

### **Excision & Biopsy**

- Muscle or Bone
- Depth of wound or tissue excised

### Introduction or Removal

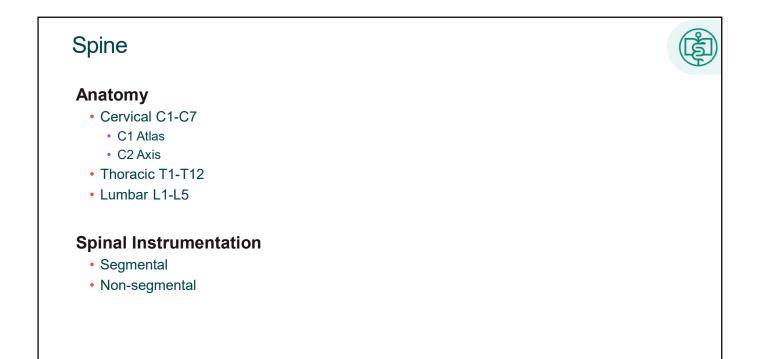

- Injections
- Foreign body removal

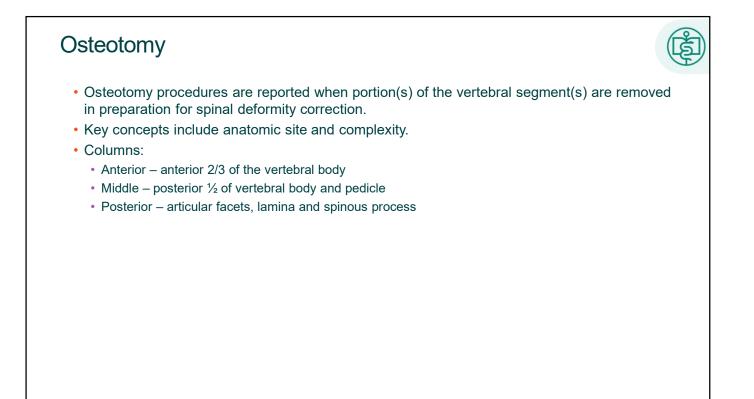

# **Trigger Point Injections**

- Aponeurosis is an abnormal sheet like extension of the tendon. Injection of a tendon or ligament is the medical therapeutic procedure to reduce the aponeurosis formation
- Trigger points are painful knots of muscle that are tight and do not relax.
- Codes are available for injections with or without medication.
- Codes are selected based on the number of <u>muscles</u> treated, not the number of needles or injections placed.

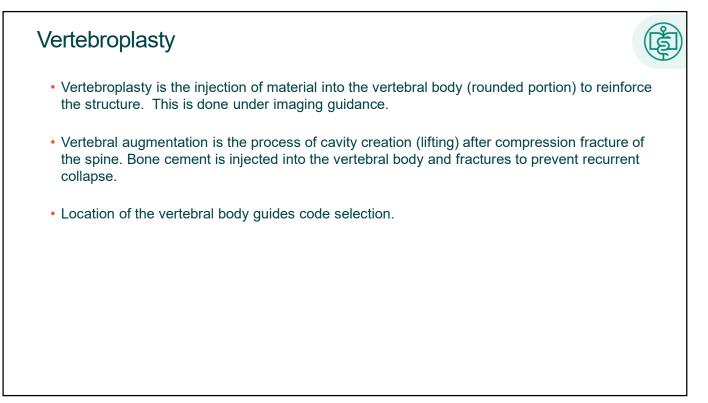

# Bone Grafting and Vertebral Column

### Guidelines

- Bone grafting procedures are separately reportable.
- Instrumentation is separately reportable.
- When arthrodesis (fusion) is also performed, it is reported in addition to the primary procedure with modifier -51.
- When 2 surgeons work together as primary surgeons performing distinct parts of a single procedure, each surgeon reports his distinct work by appending modifier -62 to the procedure code.

# Vertebroplasty

### Key to coding:

- Number of levels
- Location (cervical, thoracic, lumbar)
- · Imaging guidance not reported separately
- Modifier 50 not reported

### 137

# Application of Casts and Strapping

### Cast application is billable if:

- It is a replacement cast during follow-up or after care for a fracture
- It is an initial service performed without restorative treatment or procedure to stabilize or protect a fracture, injury or dislocation or to provide comfort to a patient.

# <section-header><section-header><section-header><list-item><list-item><list-item><list-item><list-item>

### 139

# Endoscopy/Arthroscopy

Many services can be reported as either arthroscopic or as open incisional services.

- Look for key words in the operative report such as scope or port to identify an arthroscopic procedure.
- Watch parenthetical statements under the codes for services that are included with other arthroscopic services

## **HCPCS** Level II

### Orthotic and Prosthetic Basic Orthopedic Supplies

- Crutches
- Canes
- Walkers
- Traction Devices
- Wheelchairs
- Other orthopedic supplies

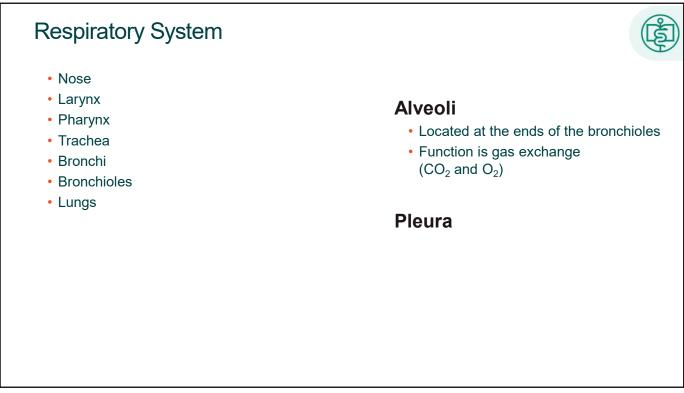

### 141

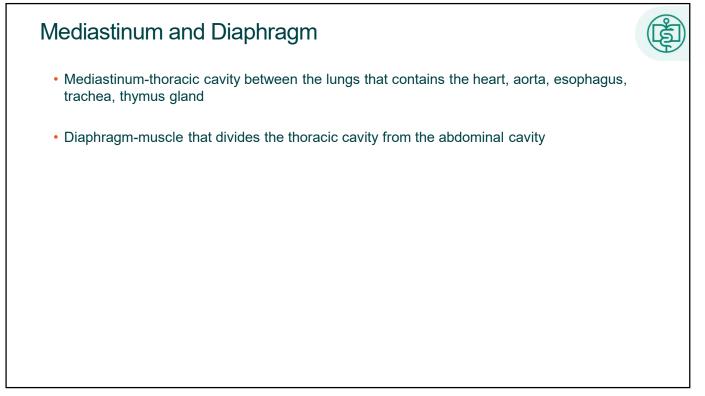

30000 Series Respiratory, Hemic, Lymphatic, Mediastinum, Diaphragm and Cardiovascular Systems

**CPC** Review

Copyright © 2022 AAPC

# Hemic and Lymphatic Systems

- Network of channels
- Structures dedicated to circulation and production of lymphocytes
- Three interrelated functions
  - · Removal for interstitial fluid from tissues
  - · Absorbs and transports fatty acids to circulatory system
  - Transport antigen presenting cells to lymph nodes

### 145

# Hemic and Lymphatic Systems

### Spleen

- · Located left side of stomach
- Reservoir for blood cells
- Produces lymphocytes involved in fighting infection

# ICD-10-CM: Respiratory

- Acute Upper Respiratory Infections (J00-J06)
- Influenza and Pneumonia (J09-J18)
- Other acute lower respiratory Infections (J20-J22)
- Other diseases of Upper Respiratory tract (J30-J39)
- Chronic Lower Respiratory diseases (J40-J47)
  - Bronchitis (J40-J42)
  - Emphysema (J43)
  - COPD (J44)
  - Asthma (J45)

147

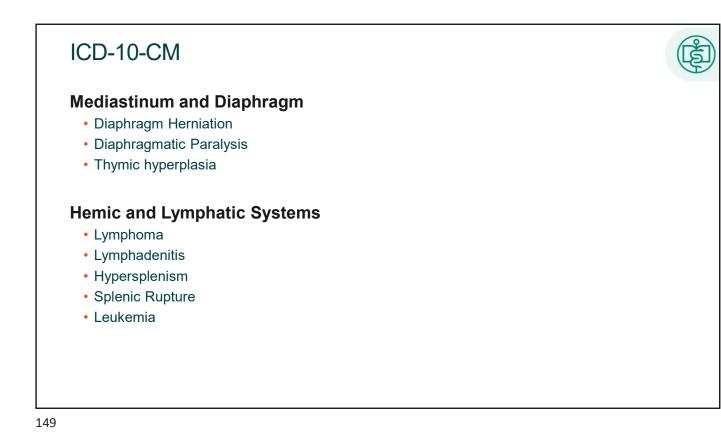

# ICD-10-CM

### U00-U85

- U07.0 Vaping-related disorder
- U07.1 COVID-19
- U09.9 Post COVID-19 condition, unspecified
- Codes for Special Services

# **Rules/Guidelines**

### **Respiratory procedures**

· Progress downward from the head to the thorax

### **Parenthetical statements**

- Directions on how to use specific codes
- · Apply to codes above parenthetical note; not below

### Most codes are unilateral

### Use modifier 50 if bilateral procedure performed

• Unless code descriptor states bilateral

# Nose

### Excision

- Biopsy code
- Removal of lesions, cysts, and/or polyps
- Turbinates

### Rhinectomy

151

# Nose

### Introduction

- Therapeutic turbinate injection
- Prosthesis for deviated nasal septum
  - Plug placed by physician

### Removal of foreign body

- Office setting
- Facility setting
  - General anesthesia

# Nose

### Repair

- Rhinoplasty
- Septoplasty, Atresia, Fistulas, Dermatoplasty

### Destruction

• Turbinate mucosa

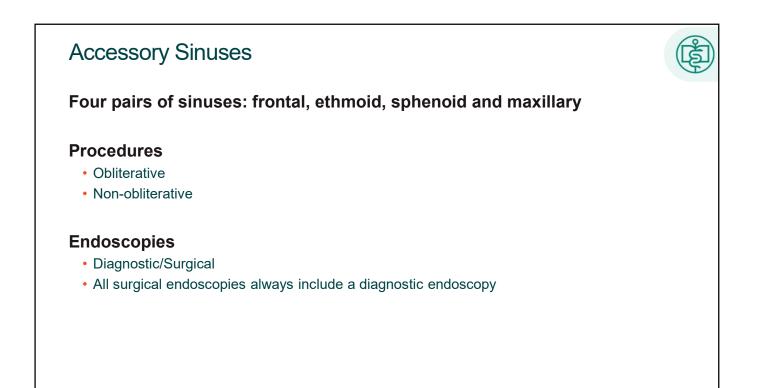

# Epistaxis

### Coding concepts include:

- Anatomical site
- Complexity
- Codes are unilateral and require use or RT or LT
- Bilateral nosebleed would require modifier -50.

# The Larynx

### Endoscopy

- Use of operating microscope or telescope
  - · Parenthetical statement instructs not to code the operating microscope
- Direct visualization
  - · View anatomical structures via bronchoscope inserted into laryngoscope
- Indirect visualization
  - Structures viewed in a laryngoscopic mirrored reflection

# Trachea and Bronchi

### Endoscopy

- Many bronchoscopy codes
  - Use common portion of main or parent code (up to the semicolon) as the first part of each indented code descriptor under the parent code
- · Bronchoscopy codes
  - Bronchial lung biopsies
  - · Foreign body removals
  - Stent or catheter placements
  - Flexible or rigid scopes
  - · Many parenthetical statements

# Trachea and Bronchi

# **Excision and Repair**

- Carinal reconstruction
  - Needed after removal of cancer at this site
- Tracheal tumor excision
  - Thoracic and intrathoracic
- Stenosis and anastomosis excision
- Injury suturing
- Tracheostomy scar revision

159

# Lungs and Pleura

### **Incision codes**

- Thoracostomy
- Thoracotomy
- Pneumonostomy
- Pleural scarification
- Decortication

# Lungs and Pleura

### Excision

- Biopsies
  - Read parenthetical statement directions
- Pleurectomy

### Removal

- Thoracentesis
- Total pneumonectomy
- Lobectomy
- Resections

161

# Lungs and Pleura

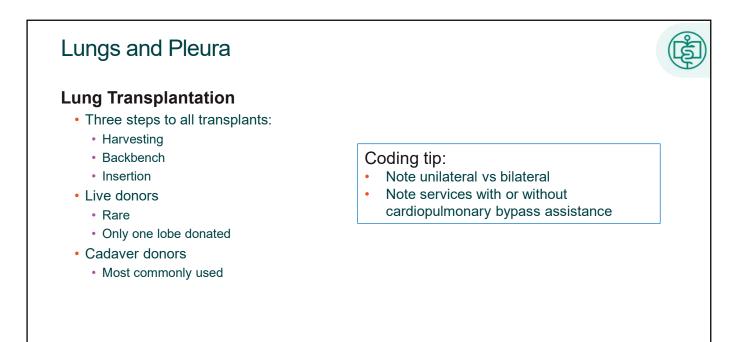

### Introduction and Removal

• Thoracostomy (chest tube)

### Endoscopy

- Diagnostic vs. surgical
- VATS

163

# Lungs and Pleura

### Surgical collapse therapy/thoracoplasty

- Resection
- Thoracoplasty

### Other procedures

- Lung lavage
- Tumor ablation
- Unlisted 32999

# Pulmonary

### **Ventilator Management**

### **Other Procedures**

- Spirometry
- Pulmonary capacity studies
- Respiratory flow studies
- Pulmonary stress testing
- Inhalation treatment
- Oxygen uptake
- Pulse oximetry

165

# Mediastinum & Diaphragm

### Mediastinum

- Mediastinotomy based on approach
- Excision (cyst, tumor)
- Endoscopy

### Diaphragm

- · Hernia repair
- Resections

# Hemic and Lymphatic Systems

### Spleen

- Splenectomy
  - Code selection based on type
- Splenorrhaphy
  - · Reported when a ruptured spleen is repaired

### General

• Bone marrow or stem cell services

167

# Hemic and Lymphatic Systems Lymph Nodes & Lymphatic Channels Drainage of lymph node abscess Biopsy or Excision Code selection based on method and location Lymphadenectomy Limited – removes only lymph nodes Radical – removal of lymph nodes, glands, and surrounding tissue Injection Procedures Lymphangiography

- Two atria
- Two ventricles

### **Three layers**

- Endocardium
- Myocardium
- Epicardium

### Valves

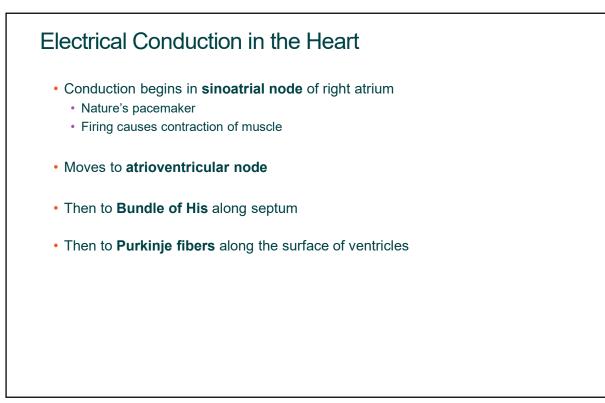

- Atrioventricular valves
  - Tricuspid
  - Bicuspid (Mitral)
- Semilunar valves
  - Pulmonary
  - Aortic

169

# **Oxygenation Process**

- RA > tricuspid valve > RV
- RV > pulmonary valve > pulmonary artery
- LUNGS (gas exchange) > pulmonary vein >
- LA > mitral valve > LV
- LV > aortic valve > BODY via arteries
- BODY > via veins > RA

171

# **Coronary Arteries & Blood Vessels**

### **Arteries**

- Carry oxygenated blood
- Take blood away from heart to the body

### Veins

- Carry deoxygenated blood
- · Bring blood back to the heart from the capillary beds

### Capillaries

· Connect arteries and veins

# Circulations

### **Pulmonary Circulation**

- · Pushes deoxygenated blood into the lungs
- · Carbon dioxide removed and oxygen added
- Blood flows to the left atrium

### **Systemic Circulation**

- · Blood flows from left atrium into the left ventricle
- · Pumped to the body to deliver oxygen and remove carbon dioxide

173

# ICD-10-CM Coding

- Chapter 01: Infectious and parasitic diseases
- Chapter 02: Neoplasms
- Chapter 09: Diseases of the Circulatory System
- Chapter 17: Congenital Anomalies
- · Chapter 18: Signs, Symptoms and Ill-Defined Conditions

# ICD-10-CM: Hypertension

### Hypertensive Disease

• I10 Essential (primary) Hypertension

• Includes high blood pressure, arterial, benign, essential, malignant, primary, systemic

- I11- Hypertension with heart disease (presumed relationship exists between hypertension and heart disease)
- I12- Hypertensive chronic kidney disease (presumed relationship exists between hypertension and chronic kidney disease)
- I13- Hypertensive heart and chronic kidney disease
- I15- Secondary Hypertension
- I16- Hypertensive Crisis

# ICD-10-CM: Arteriosclerosis

### CAD of native coronary artery (I25.10)

- The patient is not a heart transplant
- The patient has CAD with no history of CABG
- The patient had a prior PTCA of native coronary artery and the patient is admitted with reocclusion of this lesion

# ICD-10-CM Coding

- Endocarditis
- Heart Failure
- Pericarditis
- Peripheral Arterial Disease (PAD)
- Valve Disorders
- Myocardial Infarction (MI)
  - Acute MI
  - Chronic MI and Old MI

177

# ICD-10-CM Coding

### **Myocardial Infarction (MI)**

- Acute MI
- Chronic MI and Old MI

# **CPT<sup>®</sup> Coding**

### **Surgical Section**

### **Radiology Section**

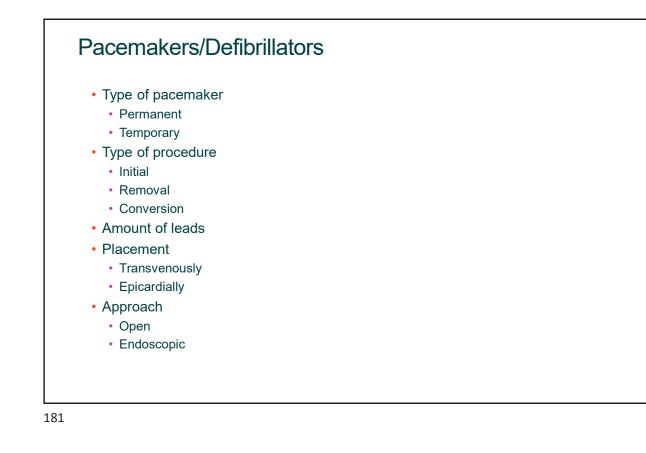

- Heart
- Vascular
- Diagnostic Ultrasound (various CPT<sup>®</sup>s)
- Radiologic Guidance
- Nuclear Medicine

### **Medicine Section**

- Cardiovascular
- Noninvasive Vascular Diagnostic Studies

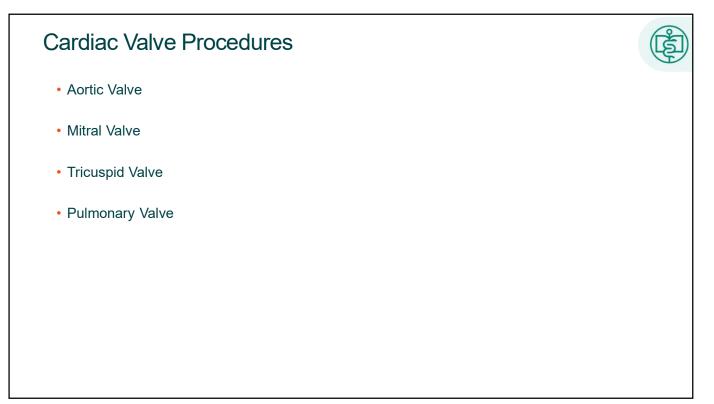

# Pacemakers/Defibrillators Pacemaker System and Pacing cardioverter-defibrillator system To code these procedures, you need to know: Type of system Whether the placement is temporary or permanent Whether the device is single, dual, multiple leads, or leadless Placement of electrodes (transvenous, endoscopic for epicardial placement, epicardial, coronary sinus) The procedure performed (removal, replacement, insertion) Components removed, replaced, or inserted (pulse generator, leads) (All at once or individually)

# Subcutaneous Cardiac Rhythm Monitor and Implantable Hemodynamic Monitors

- Implantable loop recorder (ILR) –an event recorder that is activated by irregular cardiac activity.
- Wireless pressure sensor for hemodynamic monitoring sensor is placed in the pulmonary artery via a right heart catheterization.

sets of cod	es:		
Material Used	Code(s) billed		
Vein <b>only</b>	33510 - 33516		
Artery	33533 - 33536		
Artery <b>and</b> Vein	33533 - 33536 33517 - 33523		
	your books with co L WITH 33533 - 33	odes 33510 – 33516: <b>536</b>	

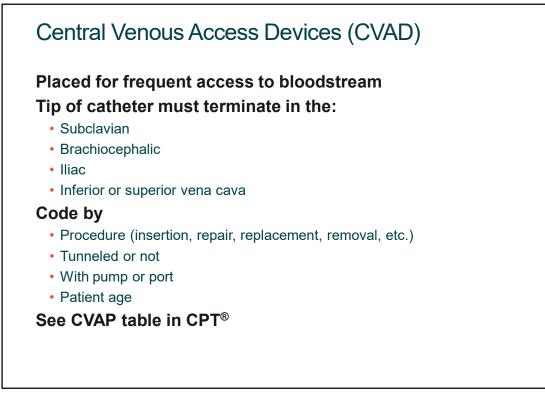

# Coronary Artery Bypass Grafting (CABG)

### Beware of the add-on codes:

- +33508 Endoscopy, surgical, including video-assisted harvest of vein(s) for CABG
- S 33509 Harvest of upper extremity <u>artery</u>, 1 segment, for CABG, endoscopic
- +33572 Coronary endarterectomy, open, in conjunction with CABG
- +33530 Reoperation, CABG or valve procedure, more than 1 month after the original operation
- +35500 Harvesting of an upper extremity vein
- +35572 Harvesting of a femoropopliteal vein
- $\odot$  35600 Harvest of upper extremity artery, 1 segment, for CABG, open

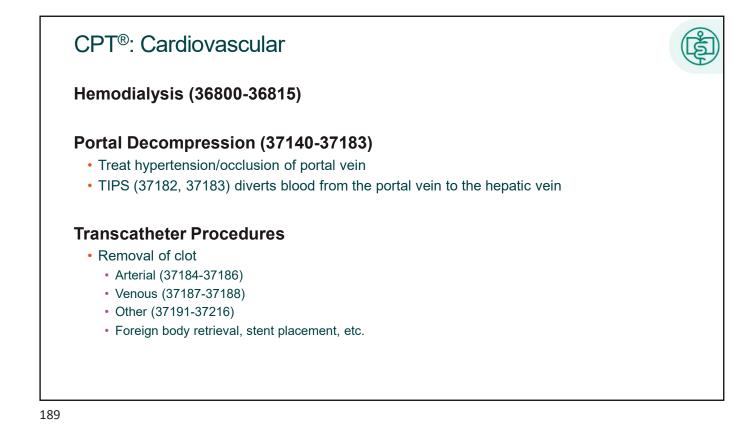

185

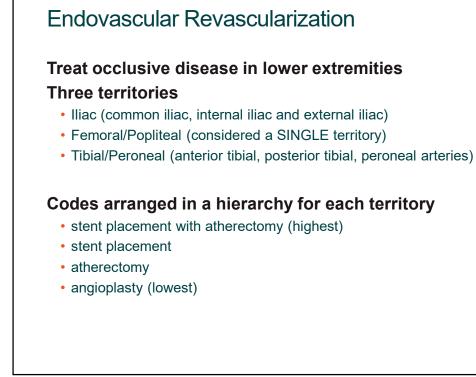

# Bypass Grafts **Non-coronary vessels**• Vein • In-situ vein • Vein is left in native location • Other than vein **Code by type/location**

# <section-header><section-header><section-header><section-header><section-header><section-header><section-header><list-item><list-item>

# Bundled into Endovascular Revascularization

- Vascular access
- Catheter placement
- Traversing the lesion
- Imaging related to the intervention (previously billed as the supervision and interpretation code for the specific intervention)
- Use of an embolic protection device (EPD)
- · Imaging for closure device placement
- · Closure of the access site

191

# Radiology Vascular Procedures

### **Diagnostic angiography**

- Sometimes separately reportable
- Diagnostic angiography performed at a separate setting from an interventional procedure is separately reportable
- Diagnostic angiography performed at the time of an interventional procedure is NOT separately reportable if it is specifically included in the interventional code descriptor

# CPT®: Cardiovascular Medicine Section

- Therapeutic services and procedures
- Cardiography
- · Cardiovascular monitoring services
- · Implantable wearable cardiac device evaluations
- Echocardiography
- Cardiac Catheterizations
- Intracardiac Electrophysiological Procedures/Studies
- Peripheral Arterial Disease Rehabilitation
- Noninvasive physiologic studies and procedures
- Other procedures

193

# Percutaneous Coronary Interventions

### Major coronary arteries:

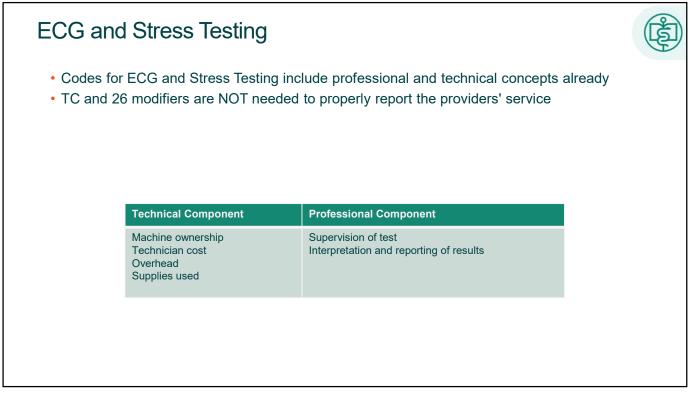

- · Left circumflex (LC) and its marginal branches
- · Left anterior descending (LD) and its diagonal branches
- · Right coronary (RC) and the posteriolateral and posterior descending branches
- All interventions MUST identify the artery, or its branch being touched using modifiers LC, LD, RC

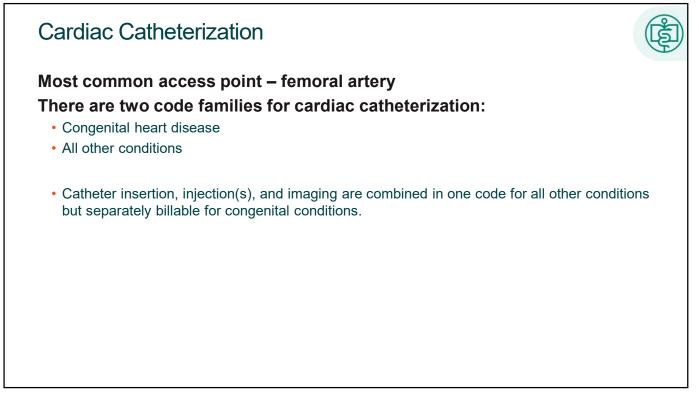

# Percutaneous Coronary Interventions

- Each branch (LD, LC, RC) is reported as its OWN intervention
- The add-on code MUST match or share the SAME modifier as the primary.
- Example:
  - Stents were placed in the left anterior descending and the left circumflex ....... 92928-LD, 92928-LC
  - Stents were placed in the left anterior descending and its first diagonal ....... 92928-LD, 92929-LD

199

# **Digestive System**

### Lips/Mouth

- Teeth
- Gums
- Tongue

### Pharynx

· Conduit for respiration and digestion

### **Esophagus**

- · Conduct food from the pharynx to the stomach
- · Peristaltic action moves the food

201

# **Digestive System**

### Stomach

- Cardia
- Fundus
- Pylorus (antrum)
- Body

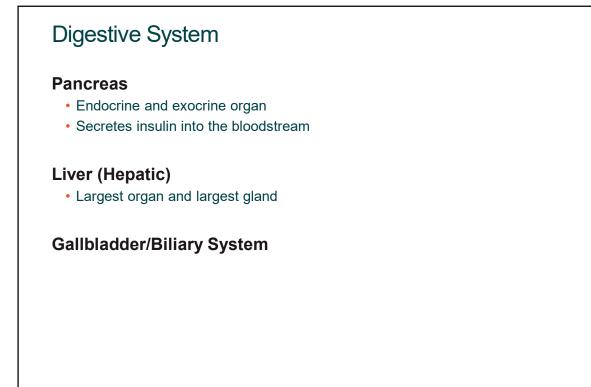

### Small Intestine (small bowel)

- Duodenum
- Jejunum
- Ileum

### Large Intestine (large bowel)

- Cecum (appendix attached)
- Colon
  - Ascending colon
  - Transverse colon
  - Descending colon
  - Sigmoid colonRectum
  - RecitAnus

203

# ICD-10-CM: Digestive

- Chapter 1: Infectious and Parasitic Diseases
- Chapter 2: Neoplasms
- Chapter 11: Disease of the Digestive System
- Chapter 17: Congenital Anomalies
- Chapter 18: Signs, Symptoms, and III-Defined Conditions

# Diseases of the Digestive System

### **Esophageal and Swallowing Disorders**

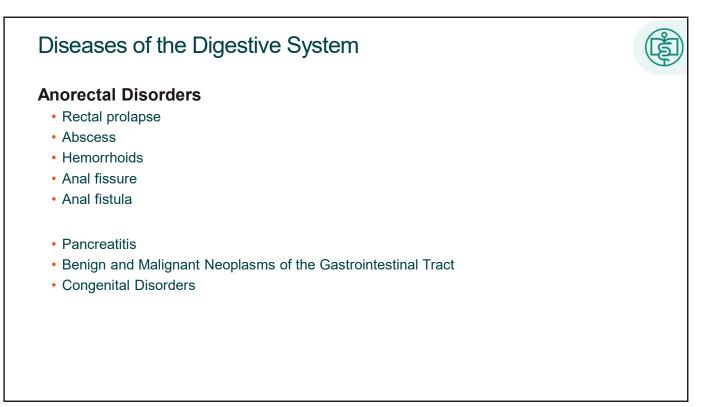

- Barrett's Esophagus
- Esophagitis
- · Esophageal varices
- Mallory-Weiss Tear
- Hiatal Hernia
- Swallowing Disorders/Dysphagia
- Gastritis and Peptic Ulcer Disease
- Gastrointestinal Bleeding
- Gastroenteritis

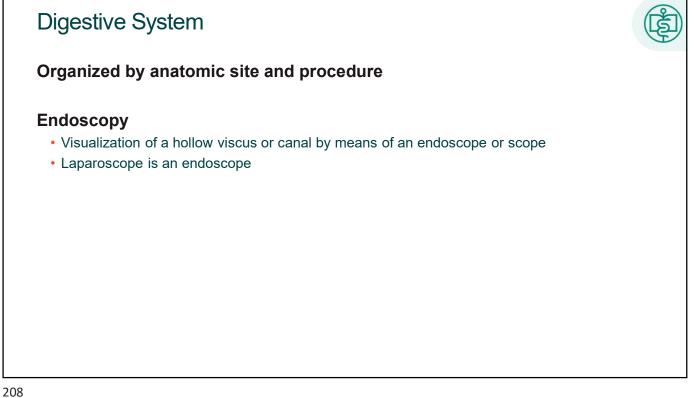

205

# Diseases of the Digestive System

- Inflammatory Bowel Disease (IBD)
- Irritable Bowel Syndrome (IBS)
- Foreign Bodies
- Diverticular Disease
  - Diverticulosis
  - Diverticulitis

# Guidelines

- Diagnostic services are listed as separate procedure
- When done in conjunction with a surgical service (diagnostic becomes surgical), only the surgical service is billable.

209

# **Digestive System**

### Lips

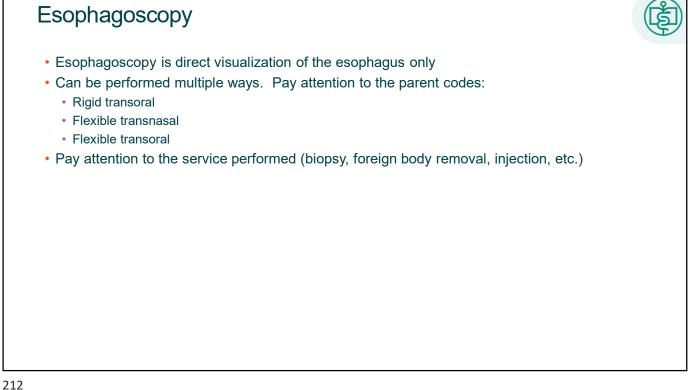

- Vermilionectomy
- Cheiloplasty

### Mouth

- Vestibuloplasty
- Glossectomy
- Palatoplasty

# **Digestive System** Pharynx, Adenoids and Tonsils Tonsillectomy Adenoidectomy Biopsy Pharyngoplasty Pharyngostomy **Esophagus**

211

# Esophagogastroduodenoscopy (EGD)

- EGD includes visualization of the esophagus, stomach and proximal duodenum or jejunum
- Also known as an Upper GI exam
- Many parenthetical statements
- If duodenum/jejunum is not examined:
  - Report with modifier 52 if repeat exam is not planned
  - Report with modifier 53 if repeat exam is planned

# Endoscopic Retrograde Cholangiopancreatography

- · Visualization of the biliary or pancreatic duct systems
- · Considered complete if one or more of the ductal system(s) is visualized
- · Many guidelines to review

# **Digestive System**

### Stomach

- Gastrectomy
- Bariatric and Gastric Bypass
- Endoscopic procedures

# **Gastric Bypass**

### **Procedures include:**

- Roux-en-Y
- Banding
- Laparoscopic gastric restriction
- Open gastric restrictive procedures
- Gastric bypass

### Digestive System

### Intestines (except rectum)

- Incision
  - Enterolysis
  - Exploratory procedures
- Endoscopic
  - Small intestines
  - · Beyond the second portion of the duodenum and stomal endoscopy
  - Colonoscopies
- Enterostomy

217

### **Digestive System**

### Rectum

- Incision drainage of abscesses
- Excision
  - Proctectomy partial or complete
- Endoscopy
  - Proctosigmoidoscopy
  - Sigmoidoscopy
  - Colonoscopy

### Anus

• Hemorrhoids

### Endoscopy

- Proctosigmoidoscopy exam of the rectum
- Sigmoidoscopy exam of the rectum and sigmoid colon
- Colonoscopy exam of the entire colon from the rectum to the cecum
- Colonoscopy through stoma exam of the colon from a colonoscopy stoma to the cecum

219

### **Digestive System**

- Liver
- Biliary Tract
- Pancreas

### **Digestive System**

### Abdomen, Peritoneum, and Omentum

- Exploratory laparotomy
- Drainage of abscess open or percutaneous
- Laparoscopy
- Hernia codes
  - Type of hernia
  - Strangulated or incarcerated
  - Initial or subsequent repair

221

### HCPCS: Digestive System

### **Colorectal cancer screening**

- G0104-G0106
- G0120-G0122

50000 Series Urinary System, Male Genital System and Female Genital System

**CPC** Review

AAPC

Copyright © 2022 AAPC

223

### Anatomy: Urinary System

- Two kidneys (filters)
- Renal pelvis/one per kidney (funnels urine into ureters)
- Two ureters (to bladder)
- One bladder (storage)
- One urethra (exit)
- Nephro = kidney
- Renal = related to kidney
- Pyelo = renal pelvis

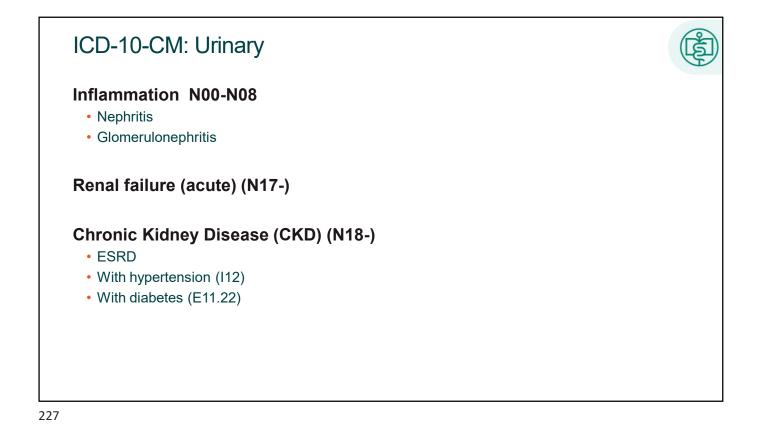

# Anatomy: Male Reproductive System Testicles (sperm production, contained in scrotum) Duct system (transport sperm) Epididymis Vas deferens Vas deferens Accessory glands (contribute to ejaculate) Seminal vesicles Prostate gland Penis shaft glans prepuce

225

### ICD-10-CM: Urinary

Look primarily to N00-N99 Listed anatomically

- Kidney
- Ureters
- Bladder
- Urethra

### -

ICD-10-CM: Urinary

### Renovascular disease (N25.-)

- Report underlying condition first
  - Central diabetes inspidus (E23.2)
  - Nephrogenic diabetes insipidus (N25.1)
- Small Kidney (N27.-)
- Pyelonephritis (N12)
- Hydronephrosis (N13.-)
- Calculi (N20.-)

### ICD-10-CM: Urinary

### VUR (N13.-)

· Backflow or urine into ureter

### Cystitis (N30.-)

• Bladder inflammation

### Voiding disorders (N31.-, N32.-)

• Urinary incontinence (N39.-, R32)

### UTI (N39.0)

• Report organism, when known

229

### ICD-10-CM: Male Genital System

### Look primarily to N40-N53 Listed anatomically

- Prostate
- Testes
- Penis

### Also...

- Congenital Anomalies
- Neoplasms
- Signs/Symptoms

## ICD-10-CM: Male Genital System BPH Hyperplasia

- Prostatitis
- PSA
- Dysplasia
  - PIN III
  - PIN I or II

231

### ICD-10-CM: Male Genital System

### Spermatic cord, Testis, Tunica Vaginalis, Epididymis

- Hydrocele
- Orchitis

### Penis

- Phimosis
- Balanitis
- Routine circumcision
- Male infertility
- Peyronie's disease

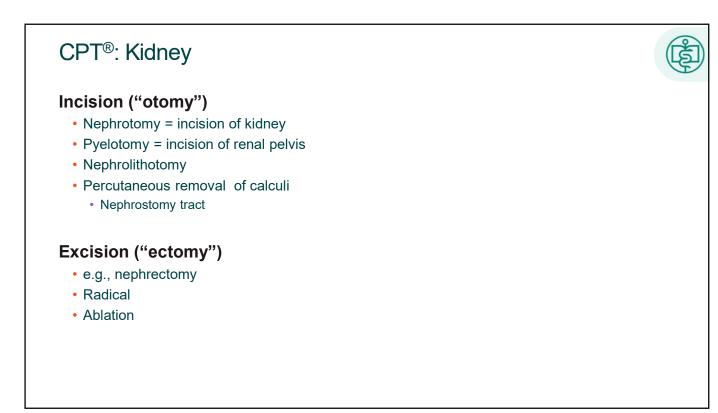

### ICD-10-CM: Male Genital System

### **Congenital Anomalies**

- Cryptorchidism
- Hypospadias
- Epispadias
- Neoplasms (by location)
- Injury
- Signs and Symptoms

233

## CPT®: Urinary Arranged by location/procedure type Incision, excision, repair, etc. Bilateral vs. Unilateral Operating Microscope (69990) may be separate Surgical endoscopy always includes diagnostic endoscope

### CPT®: Kidney

### Repair

- Ureteral repair
- · Creation of ureteral conduit

### Introduction (aspiration, injection, instillation)

- Ureteral stents
- Catheter changes
- Bladder irrigation and/or instillation

### **Kidney Abscess**

- Treatment for renal abscess or renal stone extraction may require a nephrostomy tube to be placed.
- Often performed under CT guidance.
  - Report radiological guidance separately.
- · Percutaneous removal of stones is coded by the size of the stone
  - Usually under fluoroscopic guidance and via existing nephrostomy tube/tract.
  - · If no existing tube/tract, a nephrostomy tract must be created and reported

### CPT®: Urinary

### Laparoscopy

Code by procedure

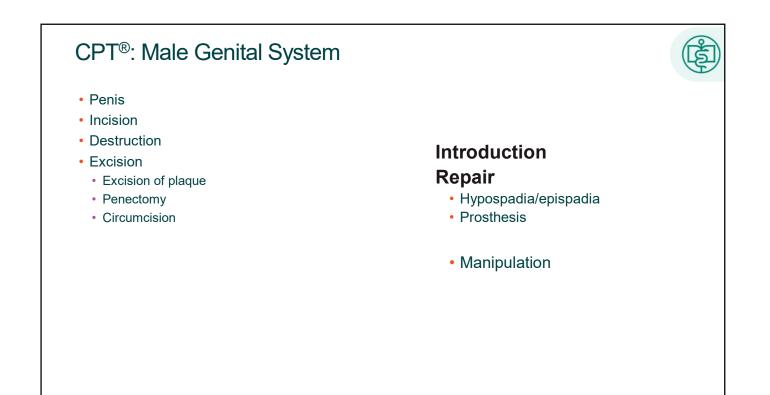

### Endoscopy

· Performed through natural or created opening

### **Other Procedures of Kidney**

- Renal Transplantation
- Lithotripsy
- · Percutaneous ablation of renal tumors
- · Cryotherapy for renal tumors

### **Urodynamics**

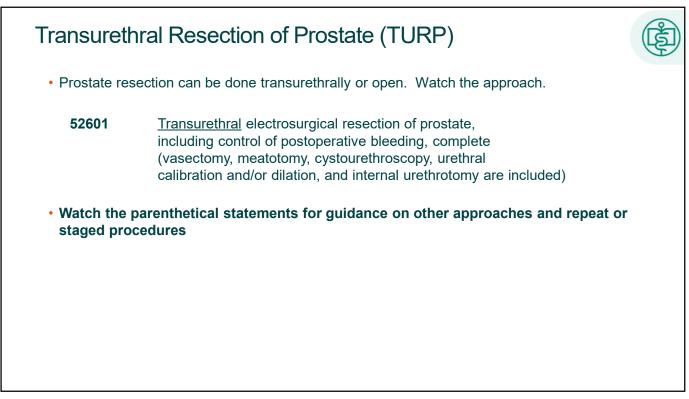

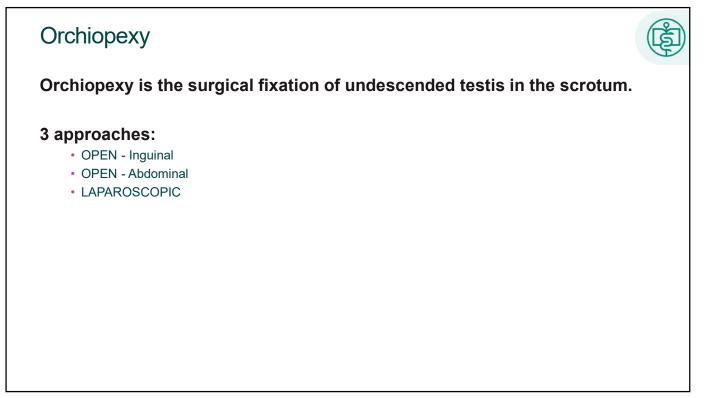

240

### Penile Implants

### Туре

- Inflatable
- Non-inflatable
- Multi-components
- Initial
- Repair
- Removal
- Removal and replacement

### Anatomy

### **External genitalia**

- Mons pubis
- Labia (majora and minora)
- Hymen
- Bartholin's glands
- Clitoris
- Urethra

### **Internal Genitalia**

- Vagina
- Uterus
- Cervix
- Fallopian tubes ("tubes" or oviducts)
- Ovaries

243

### ICD-10-CM: Female Genital System

- Chapter 14: Disease of the Genitourinary System
- Chapter 15: Complications of Pregnancy, Childbirth, and the Puerperium
- Chapter 2: Neoplasms
- Chapter 21: Z Codes

## ICD-10-CM: Female Genital System Female Genitourinary System

Complications of Pregnancy, Childbirth, and the Puerperium

- Have sequencing priority
- Report any condition that affects pregnancy (labor, delivery, post-partum)
- If pregnancy is incidental to condition treated, report Z33.1 as secondary code
  - Must document that condition treated does not affect pregnancy
- Only for mother, not newborn

245

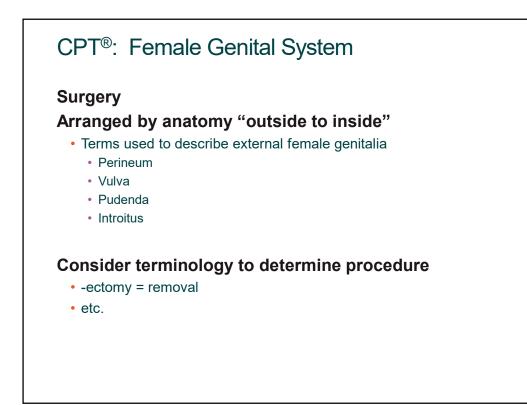

### ICD-10-CM: Female Genital System

### Routine outpatient prenatal visits w/o complication

- First pregnancy
- Subsequent pregnancy
- First-listed diagnosis
- Not to be used with other Chapter 15 Codes

### **High-risk Pregnancy**

- Code from category O09
- First-listed diagnosis
- · May be reported with other Chapter 15 codes

## CPT®: Female Genital System Vulva Vagina • 57022 - Only CPT® code related to obstetrical complications NOT in labor/delivery section Cervix Uteri • Os = opening of cervix

### Vaginectomy

### Surgical removal of all or part of the vagina.

- Depth of tissue removed:
  - Simple removal of skin and superficial subcutaneous tissue
  - Radical removal of skin and deep subcutaneous tissue
- Area of tissue removed:
  - Partial Removal of less than 80% of the vulvar area
  - Complete Removal of more than 80% of the vulvar area

# D&C D&C is a surgical procedure in which the cervix is dilated, and the uterine lining is scraped. The service can be either diagnostic or therapeutic: 58120 Dilation and curettage, diagnostic and/or therapeutic (nonobstetrical)

### Hysterectomy

There are multiple codes to report hysterectomy.

### Coding concepts include:

- Approach abdominal (open), vaginal, laparoscopic
- Total vs subtotal removal of the uterus
- With or without tubes (salpingectomy)
- With or without ovaries (oophorectomy)
- With or without total or partial vaginectomy
- Size of the uterus less than or greater than 250 g

### Maternity Care/Delivery

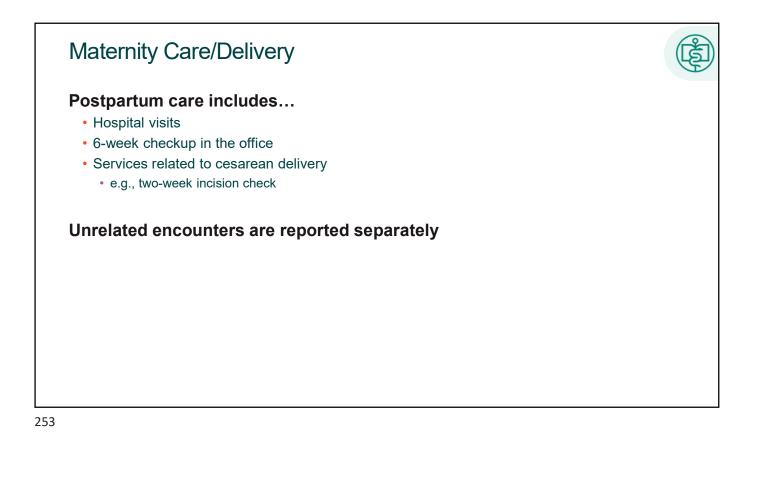

### Antepartum care

- Initial visit during pregnancy
- Ongoing visits during pregnancy
  - Average of 13 visits (global OB package)

### OB package includes...

- Antenatal care
- Delivery
- · Episiotomy and repair
- Postpartum care

### Maternity Care/Delivery

### "Partial" maternity/delivery care

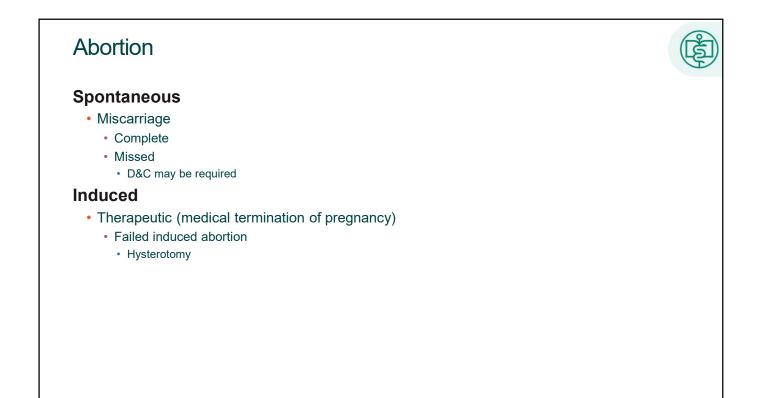

- Patient moves
- Change of coverage, etc.

### Ultrasound

- NOT included in OB global package
  - Some payers may include one U.S. in global package (standard of care)
- More than one U.S. may be performed

ervices			
Type of Delivery	Full Package	Delivery only	Delivery and Postpartum Visit
Vaginal	59400	59409	59410
C-Section	59510	59514	59515
VBAC	59610	59612	59614
Failed VBAC	59618	59620	59622
		Antepa	artum Care
		1 – 3 visits	E/M only
		4 – 6 visits	59425
		7+ visits	59426

ype of Delivery	1 <sup>st</sup> Twin	2 <sup>nd</sup> Twin
Both delivered vaginally	59400	59409-51
Both delivered by C-section	59510	
One delivered vaginally and one delivered by C-section	59510	59409-51

60000 Series Nervous, Eye and Ocular Adnexa, and Auditory Systems

### Anatomy: Endocrine

### Comprised of ductless glands that secrete hormones into the circulatory system

- Thyroid
- Parathyroid
- Thymus
- Adrenal glands
  - Medulla
  - Cortex

### Anatomy: Endocrine

### Pancreas

• Endocrine and digestive functions

### **Carotid body**

• Contains glandular tissue

### **Pituitary gland**

• Anterior and posterior lobes

### **Pineal gland**

### Structures classified elsewhere

• eg, kidneys, testes, ovaries

# Anatomy: Nervous System Comprised of two components CNS Brain Spinal Cord PNS Nerves running throughout the body

### Anatomy: Nervous System Nerve Plexi Cervical • Head, neck, shoulders **Brachial** • Chest, shoulders, arms, hands **Lumbar** • Back, abdomen, groin, thighs, knees, calves **Sacral** • Pelvis, buttocks, genitals, thighs, calves, feet **Solar (Coccygeal)** • Internal organs

### Anatomy: Nervous System Spinal cord functions: • Motor information to muscles • Sensory information to brain • Reflex coordination • Segment (bone) vs. interspace (space between) • Segments (Body, Lamina, Process [Spinous, Transverse], Foramen) • Facet joints • One per side, where segments meet

263

264

### Anatomy: Nervous System

### The Brain

- Frontal lobe
  - Cerebrum
- Two temporal lobes
- Parietal lobes
- Primary sensory cortex
- Occipital lobe
- Cerebellum
- Brainstem
- Ventricles

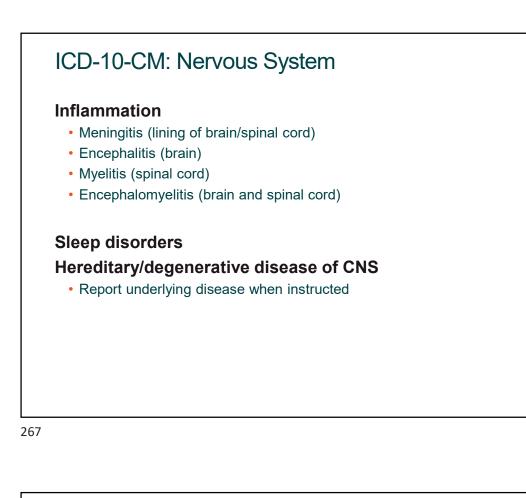

## ICD-10-CM: Endocrine Categories E00-E89, by location • 1hyroid • Parathyroid • etc. Meoplasms (Chapter 2) • Report neoplasm first • Additional diagnosis as a result of neoplasm are secondary

265

### ICD-10-CM: Endocrine

### Addison's disease (E27.1) Primary hyperparathyroidism (E21.0) Diabetes

- Secondary diabetes (E08)
  - Always has an underlying cause
- Drug/Chemical induced (E09)
- Type 1 (E10)
- Type 2 (E11)
  - Systems affected
  - Complications/manifestations

### ICD-10-CM: Nervous System

### Pain (NEC) (G89)

- Pain control is reason for visit
- Do not report as primary if you know the underlying cause, and visit is to manage that diagnosis
- Acute vs. Chronic

### **Disorders of CNS**

- Migraine (G43)
  - Status migrainosus
  - Aura
  - Intractable

### ICD-10-CM: Nervous System

### **Disorders of PNS**

- Trigeminal nerve disorder
- Neuritis
  - CTS

### Neoplasms

• Use neoplasm table, by location and type

### **Thyroid Gland Excision**

### **Concepts include:**

- Partial or total removal
- Contralateral (opposite side)
- Malignancy
- Approach

## CPT<sup>®</sup>: Endocrine Parathyroid, Thymus, Adrenals, Pancreas Endocrinology – Medicine section

### CPT®: Nervous System

### Skull, Meninges, and Brain

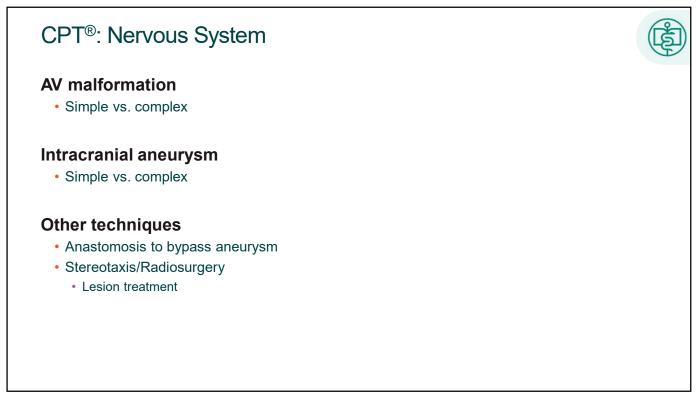

- Twist drill
- Burr holes
- Trephine
- Craniectomy/craniotomy

### Skull base surgery

- Approach
- Definitive procedure
- Repair/reconstruction

### **Endovascular therapy**

· Balloons or stents to treat arterial disease

### CPT®: Nervous System

### **Cranial neurostimulators**

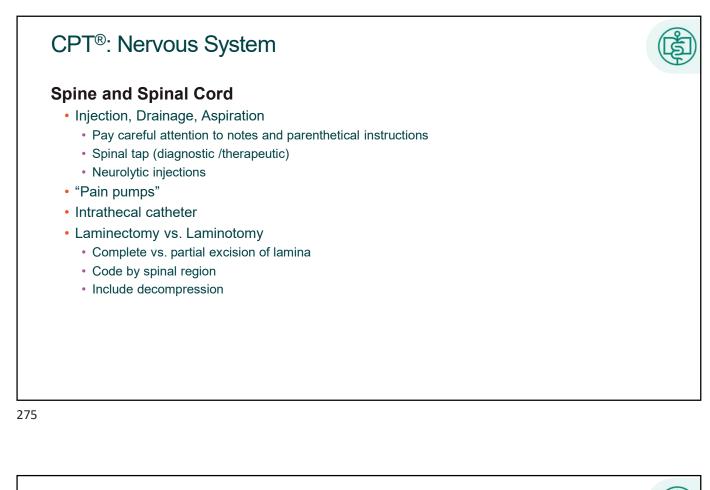

- Pulse generator
- Electrodes
  - eg, for Parkinson's, epilepsy

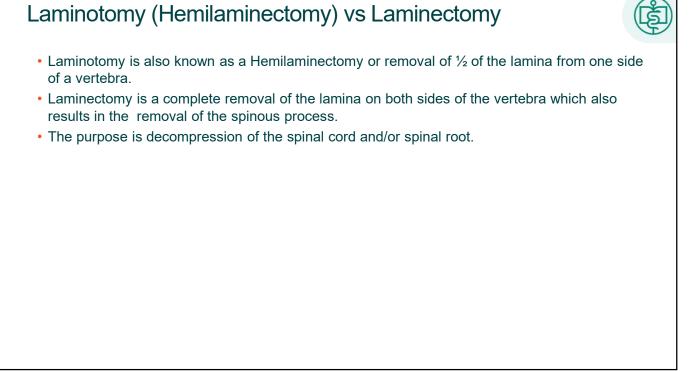

### **Repair of skull**

- Skull fracture
- Encephalocele

### Neuroendoscopy

- CSF Shunt
  - Drain accumulation of CSF
  - May require revision

### Laminotomy (Hemilaminectomy) vs Laminectomy

### Coding concepts include:

- Anatomical site (cervical, thoracic, lumbar)
- Segments vs Interspaces
- Number
- Approach (percutaneous, endoscopic, open)

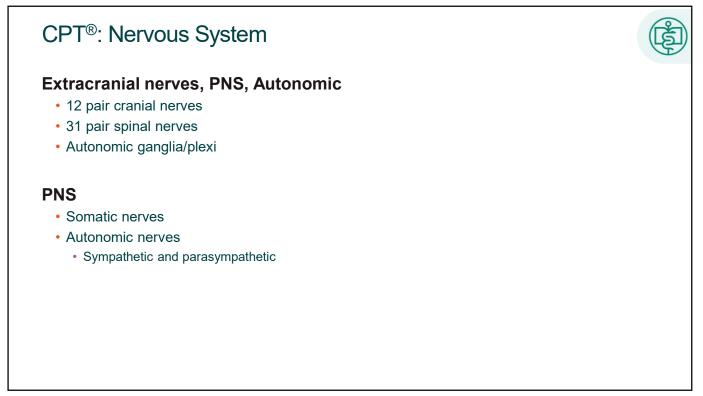

### CPT®: Nervous System

### Decompression

- Must consider approach
- Discectomy
- Osteophytectomy (removal of bony outgrowth)
- Corpectomy (vertebral body resection)
- · Intra/extradural excision of intraspinal lesion
- Stereotaxis/radiosurgery
- Spinal Neurostimulators
  - Electrodes
  - Pulse generator

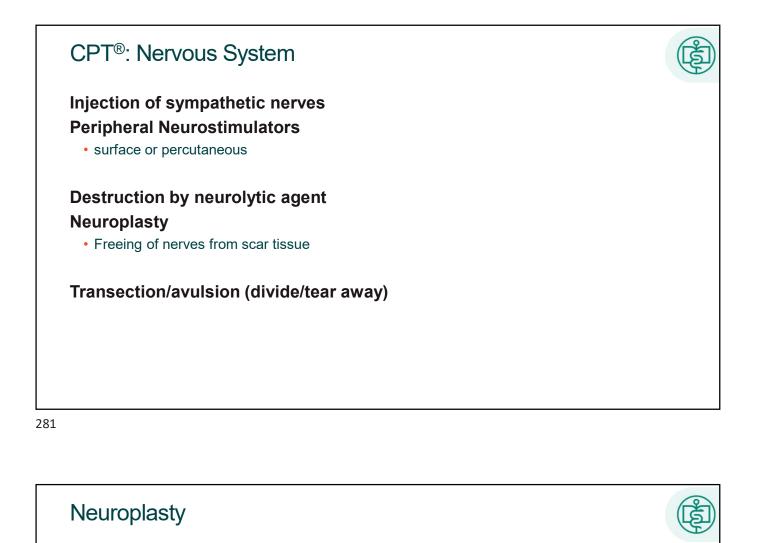

### CPT®: Nervous System

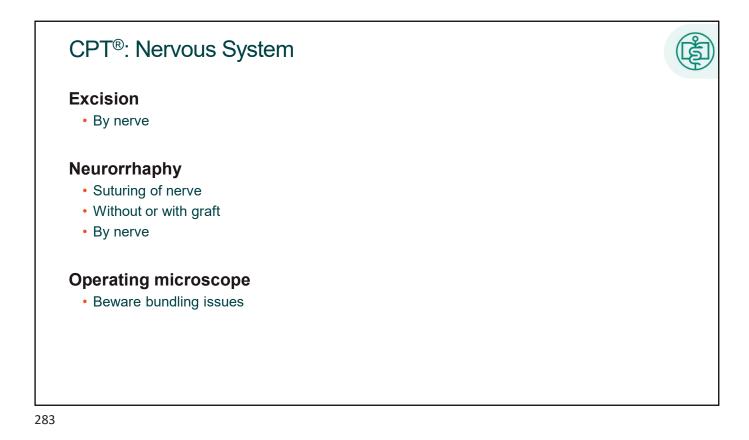

### **Facet Joint injections**

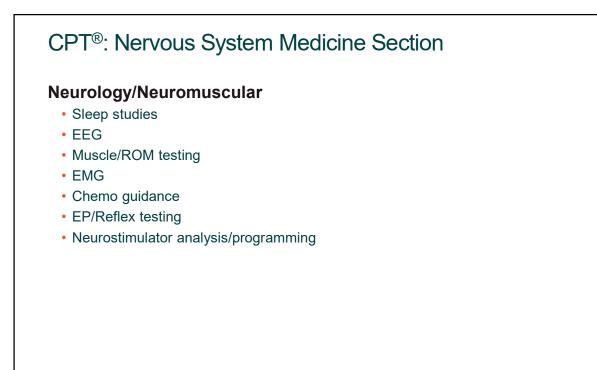

- Nerve block
  - Unilateral
  - Focus on "joint" between vertebrae
- Nerve "destruction"
- Somatic or sympathetic nerve
- Number of levels
- · If infused, duration

140

- Neuroplasty is the surgical repair nerve tissue
- Anatomical site is the key concept.
- For nerve grafts, location and size of the graft are key coding concepts.

### Anatomy: Eye and Ocular Adnexa

### Eyeball

- Sclera
- Cornea
- Pupil and Iris
- Choroid vascular layer
- Retina pigmented nerve layer

### **Optic nerve and Optic disc**

285

### Anatomy: Ear and Auditory System

### Middle ear

- Tympanic membrane
- Ossicles malleus, incus, stapes
- Eustachian tube

### Inner ear

- Labyrinth
- Membranous labyrinth hair cells
- Vibrations into nerve impulse
- Cochlea, vestibule, semicircular canal
- Balance utricle, saccule
- Oval window, round window

### ICD-10-CM: Sense Organs

- Chapter 7: Diseases of the Eye and Adnexa
- Chapter 8: Diseases of the Ear and Mastoid Process
- Chapter 2: Neoplasms

287

### Eye and Ocular Adnexa

- Infection and Inflammation
- Neoplastic disease
- Injury
- Glaucoma
- Cataracts
- Retinopathy
- Retinal detachment
- Strabismus

### <section-header><section-header><section-header><section-header><list-item><list-item><list-item><list-item><list-item><list-item><list-item>

289

### CPT®: Eye and Ocular Adnexa

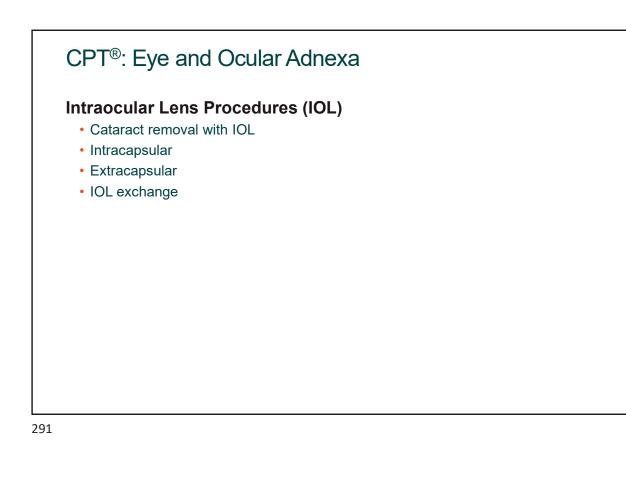

### Three procedures for removal of eye:

- Evisceration removal of contents excluding the sclera
- Enucleation removal of entire eyeball
- Exenteration removal of everything down to the bone

### **Concepts include:**

- With or without implant
- · With or without muscle reattachment
- With or without bone or muscle removal

### **Secondary Implant Procedures**

### CPT®: Eye and Ocular Adnexa

### **Ocular Adnexa**

- Strabismus
  - horizontal
  - vertical
  - transposition

### CPT®: Eye and Ocular Adnexa

### **Operating Microscope**

- Most procedures on the eye are performed with a microscope and are included in the procedure code.
- Guidelines for use of microscope state "Do not report 69990 in addition to codes where use of the operating microscope is an inclusive component 15756-15758, 15842, 19364, 19368, 20955-20962, 20969-20973, 22551, 22552, 22856-22861, 26551-26554, 26556, 31526, 31531, 31536, 31541, 341545, 31546, 31561, 31571, 43116, 43180, 43496, 46601, 46607, 49906, 61548, 63075-63078, 64727, 64820-64823, 64912, 64913, 63091-68850, 0184T, 0308T, 0402T, 0583T"

293

### CPT®: Eye and Ocular Adnexa Medicine Section

### **Special Ophthalmological Services**

- · New patient vs established patient
- Contact lens fittings
- Ophthalmoscopy
- · Fitting of glasses

## CPT®: Auditory System Auditory System • Removal foreign body from external auditory canal • both ears • Removal of cerumen – coding concepts include procedure used and unilateral vs bilateral

295

### CPT®: Auditory System

### Middle Ear

- Tympanostomy
- Mastoidectomy; complete
  - -modified radical
  - -radical

### CPT®: Auditory System

- Tympanoplasty is the surgical reconstruction or repair of the tympanic membrane (ear drum)
- Surgery can be done under either local or general anesthesia.
- Can be done:
  - without mastoidectomy, with antrotomy/mastoidotomy (cutting into the mastoid bone) or with mastoidectomy (removal of the mastoid bone)
  - with or without ossicular chain (hammer, anvil, stirrup) reconstruction

297

### CPT®: Auditory System

### **Inner Ear**

- Labyrinthectomy
- Temporal Bone, Middle Fossa Approach
- Microsurgery

### CPT®: Auditory System Medicine Section

- Special Otorhinolaryngologic Services
- Otolaryngologic examination under general anesthesia
- Vestibular Function Tests
- Audiologic Function Tests with Medical Diagnostic Evaluation

### **Radiologic Projections**

- Oblique slanting, neither frontal or lateral
- Lateral side view, X-ray beam travels through the side of the body
- Anteroposterior X-ray beam enters the body through the front and exits through the back
- Posteroanterior X-ray beam enters the body through the back and exits through the front
- Cone focused or spot view

301

### **Additional Terms**

- · Proximal closer to the point of attachment to the body
- Distal away from the point of attachment to the body
- Flexion bending
- Extension straightening

### **Diagnosis** Coding

- Code the definitive diagnosis
- · Code signs and symptoms if no definitive diagnosis is available
- Diagnostic tests
  - Code sign or symptom that prompted the test
  - Do not code questionable, rule out, or probably diagnoses
- Routine radiology
  - Z01.89 Radiological examination, NEC

303

### **CPT<sup>®</sup>** Subsections

- Diagnostic Radiology (Diagnostic Imaging)
- Diagnostic Ultrasound
- Radiologic Guidance
- Breast, Mammography
- Bone/Joint Studies
- Radiation Oncology
- Nuclear Medicine

### <section-header><section-header><section-header>

305

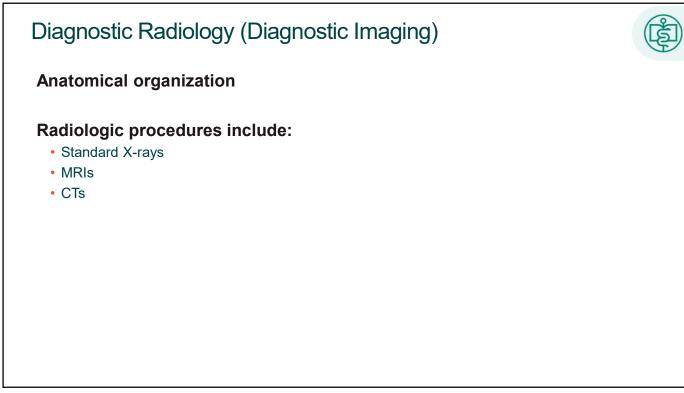

### Modifiers

### **Technical Component (TC)**

- Equipment
- Overhead
  - Supplies
  - Room
  - Gowns

### **Professional Component (26)**

• Reading and interpretation

307

### Diagnostic Radiology (Diagnostic Imaging)

### **Code Selection:**

- Anatomical location
- Type of procedure
- Number of views
- Type of view (AP, PA, etc.)
- Laterality (unilateral, bilateral)
- Contrast material

### **Coding Tip**

- Underline or highlight the anatomy
- Highlight the number of views
- Highlight or circle with/without contrast

### Heart – Subsection Guidelines

- Stress
  - Cause the heart to work harder
- Cardiac MRI
  - Physiologic evaluation of the cardiac function
  - Velocity flow mapping
- Cardiac CT
  - Coronary calcium
  - Congenital heart disease

309

### Vascular Procedures – Subsection Guidelines

### **Aorta and arteries**

- Aortography imaging of aorta and branches
- Angiography imaging of arteries

### Veins and lymphatics

- · Lymphangiography visualization of lymphatics
- Splenoportography injection of contrast into the spleen to visualize the port vessel of the portal circulation
- Venography imaging of veins

# Supervision and interpretation codes Supervision and interpretation codes Code with codes from: Cardiovascular section Medicine section

### **Diagnostic Ultrasound**

High frequency sound waves to look at organs and other structures inside the body

### Used to view:

- Heart
- Blood vessels
- Kidneys
- Other organs
- Fetus (during pregnancy)

### **Diagnostic Ultrasound**

### **Required:**

- · Permanently recorded images with measurements
- · Final written report for the patient's medical record
- Exception biometric measure

### Diagnostic Ultrasound

### **Anatomic regions**

- Complete each element listed in parenthesis within the code description
- · Limited reported if less than complete is performed
- Not reported together

### Definitions

- A-mode
- M-mode
- B-scan
- Real-time scan

### **Pelvis Ultrasound**

### **Obstetrical**

- Pregnant uterus
  - Review definitions in guidelines
- Fetal
  - Look for what specifically is being looked at (eg, umbilical artery in 76820)

### Nonobstetrical

315

### **Ultrasonic Guidance**

### Includes guidance for:

- Pericardiocentesis
- Endomyocardial biopsy
- Vascular access
- Parenchymal tissue ablation
- · Intrauterine fetal transfusion or cordocentesis
- Needle placement
- Chorionic villus sampling
- Amniocentesis
- Aspiration of ova
- Placement of radiation therapy fields

### Radiologic Guidance

- Fluoroscopic
- Computed Tomography (CT)
- Magnetic Resonance (MRI)
- Other

### Breast, Mammography

- Mammary ductogram or galactogram
- Digital Breast Tomosynthesis
- Mammography
  - Screening
  - Diagnostic

### **Bone/Joint Studies**

- Bone age studies
- Bone length studies
- Osseous survey
- Joint survey
- Bone mineral density studies
- Bone marrow blood supply

319

### **Radiation Oncology**

- Consultation: Clinical Management
- Clinical Treatment Planning
- Medical Radiation Physics, Dosimetry, Treatment Devices, and Special Services
- Stereotactic Radiation Treatment Delivery
- Other Procedures
- Radiation Treatment Delivery
- Neutron Beam Treatment Delivery
- Radiation Treatment Management
- Proton Beam Treatment Delivery
- Hyperthermia
- Clinical Intracavitary Hyperthermia
- Clinical Brachytherapy

### **Radiation Oncology Treatment**

- Radiation treatment is reported in units of 5 fractions or treatment sessions.
- "Code 77427 is ... reported if there are three or four fractions beyond a multiple of five at the end of a course of treatment; one or two fractions beyond a multiple of five at the end of a course of treatment are not reported separately."

### **Radiation Oncology Treatment**

- Reduced services modifier is NOT necessary
- Code for the number of fractions or treatments the patient had during the months

Number of visits	Code(s) to report
1 or 2 only	77431
3-7 visits	77427
8-12 visits	77427 x 2
13-17 visits	77427 x 3
18-22 visits	77427 x 4
23-27 visits	77427 x 5
28-32 visits	77427 x 6

### **Nuclear Medicine**

### Diagnostic - Use of small amounts of radioactive material to examine organ function

- Thyroid function (Endocrine System)
- Renal (Gastrointestinal System)
- Bone (Musculoskeletal System)
- Heart (Cardiovascular System)
- Brain (Nervous System)

Therapeutic – uses radioactive material to treat cancer and other medical conditions affecting the thyroid gland

323

### **Nuclear Medicine**

### Provide metabolic and functional information of the body unlike CT and MRI

- PET scans create computerized images of chemical changes within the organ or tissue
- SPECT scans use radioactive tracers and a scanner to record data that a computer constructs into 2D or 3D images. SPECT can give detailed images of blood flow to tissues in the body.
- Planar studies are flat images of a 2D object (think xray)
- Tomographic studies create 3D images of 2D objects

### Pathology and Laboratory 80000 Series

**CPC** Review

AAPC

Copyright © 2022 AAPC

325

### **Regulatory Terms**

### **Clinical Laboratory Improvement Amendment (CLIA)**

- CMS issues a waiver
- Approximately 80 tests
- Little risk of error
- For more info, see https://www.cms.hhs.gov/CLIA/10\_Categorization\_of\_Tests.asp

### Advance Beneficiary Notice (ABN)

- · Non-covered laboratory tests
- Patient is responsible for payment
- For more info., Web search "CMS-R-131"

### Modifiers

### 90 Reference or Outside Laboratory

• Billed by physician but performed by an outside laboratory

### 91 Repeat clinical diagnostic lab test

- Same test same day
- Not used if due to error
- · Not used if there is a better code for a series of tests

### 92 Alternative laboratory platform testing

- Portable test kit
- Single use disposable chamber

99 Multiple modifiers

327

### Organ or Disease-Oriented Panels

- Group of test commonly ordered together
- · All test in the panel must be performed
- Additional tests can be coded also
- · Some panels are included in other panels and should not be coded separately
- Be on the look out for "or" "and"

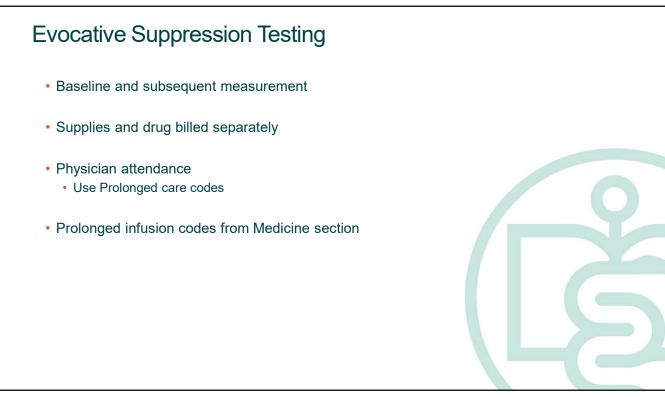

# <section-header><section-header><section-header>

### <section-header><section-header><section-header><section-header><section-header>

331

## <section-header>

333

### **Clinical Pathology Consultations**

- Requested by attending physician
- Rendered by pathologist
- Written report provided
- Patient not present
  - Lab test
  - Specimen
  - Slide
- · Limited no patient history or medical records
- Comprehensive complex problem with history and records

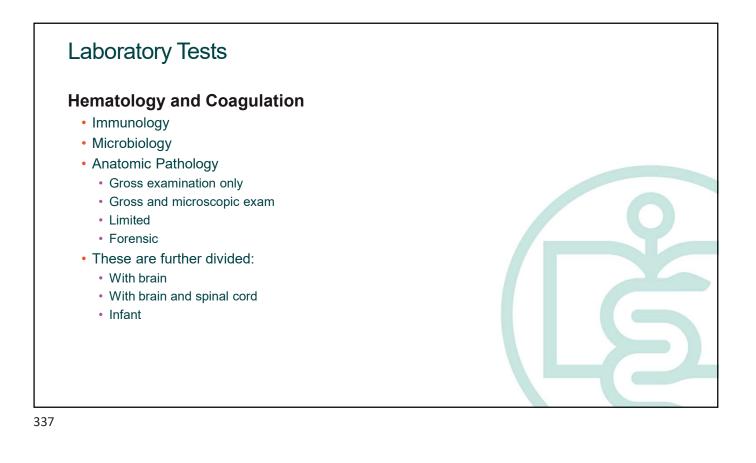

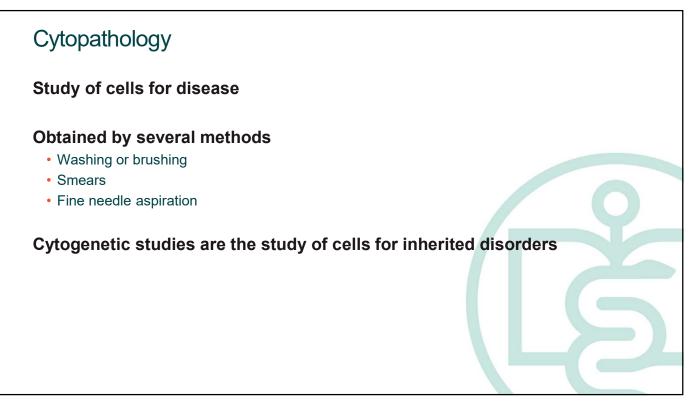

# <section-header> Urinalysis Urinalysis evaluates a sample of urine for the presence of disease, drugs, metabolites, etc. Done by a variety of methods. Care should be taken when selecting codes: Automated vs non-automated With or without microscopy Intention (pregnancy test, volume measurement, etc. ...) Usually covered under CLIA waived labs

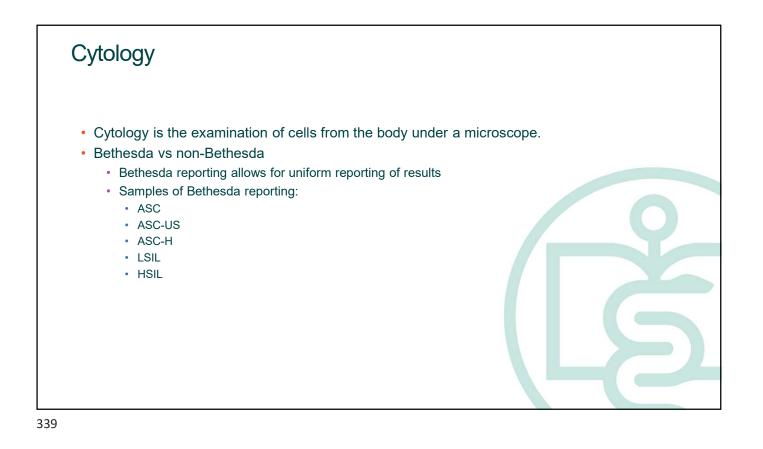

335

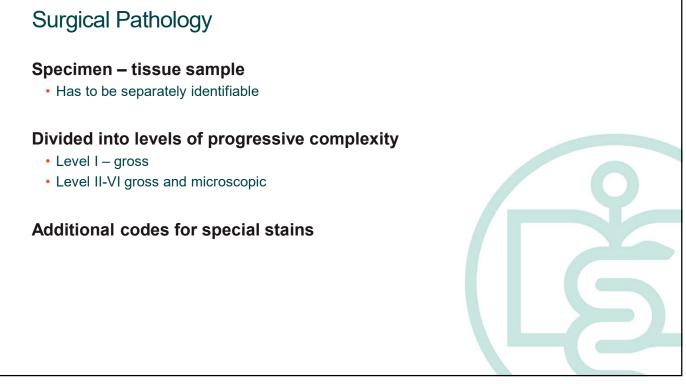

### Chemistry

- Material may be from any source (blood, sweat, urine, saliva, feces) unless otherwise specified
- Exams are qualitative unless specified
- When one analyte is measured from different sources or from specimens taken at different times, each can be separately reported.

# Surgical Pathology Levels of surgical pathology give specific examples of tissue inspected and reason 88305 Level IV – Uterus, w or wo tubes and ovaries, for prolapse 88307 Level V – Uterus, w or wo tubes and ovaries, other than neoplastic/prolapse 88309 Level VI – Uterus, w or wo tubes and ovaries, neoplastic

341

### Anesthesia

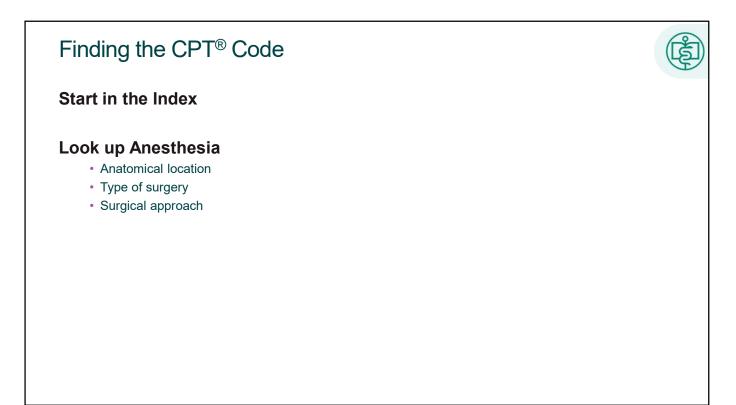

**CPC** Review

AAPC

343

Copyright © 2022 AAPC

345

### Types of Anesthesia

### Local

- Included in CPT<sup>®</sup> code
- No separate anesthesia code

### MAC - Monitored Anesthesia Care

Decreased awareness

### Regional

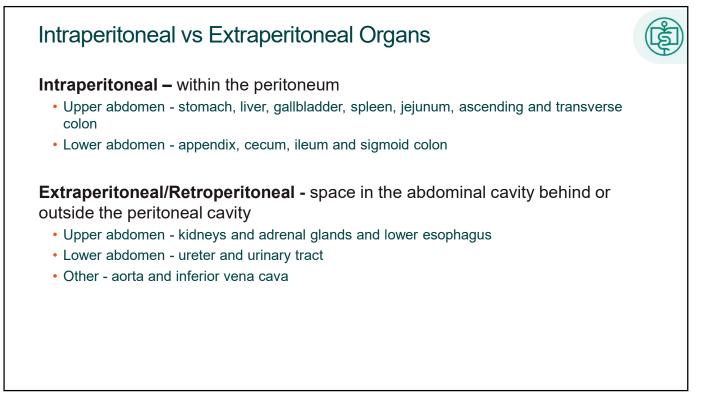

- Blocks
- Spinals
- Epidurals

### General

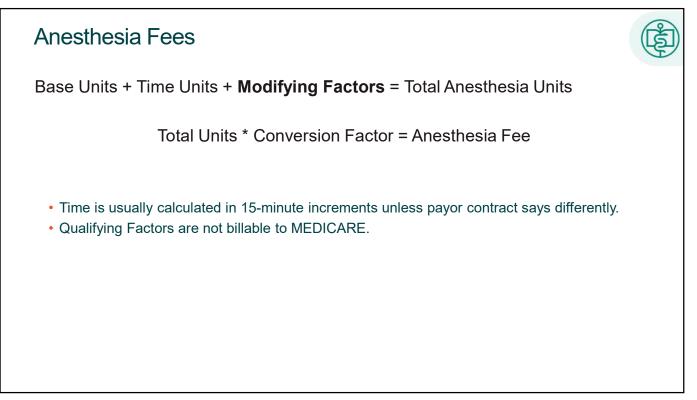

Unconscious

# Anesthesia Terminology One-lung Ventilation (OLV) Pump Oxygenator Intraperitoneal – within the peritoneum Extraperitoneal/Retroperitoneal - space in the abdominal cavity behind the peritoneum

# <section-header><section-header><section-header><section-header><list-item><list-item><list-item><list-item><list-item><list-item><list-item>

### Anesthesia Time • Time **begins** when the anesthesiologist begins to prepare the patient for anesthesia (either in the operating room or in an equivalent area) and ends when the patient is safely under postop supervision. TIP: Minutes Unit(s) • Place a chart in your book 1 15 to help calculate time in 15 minute increments 2 30 45 3 60 4

351

### **Physical Status Modifiers** · Assigned by the anesthesia provider · Coder needs to look for a diagnosis to report it · Documented in anesthesia record • P1 - normal healthy • P2 - mild systemic disease P3 - severe systemic disease – 1 unit • P4 - constant threat to patient's life - 2 units P5 - not expected to survive w/o surgery – 3 units · P6 - declared brain-dead patient

### **Qualifying Circumstances**

- + 99100 under 1 or over 70 years of age Additional 1 unit
- + 99116 anesthesia complicated by hypothermia Additional 5 units
- + 99135 anesthesia complicated by controlled hypotension Additional 5 units
- + 99140 anesthesia complicated by emergency Additional 2 units

**Coding Tip –** Watch parenthetical statements below the anesthesia CPT codes to determine when these codes are NOT billable.

353

Modifiers – HCPCS Level II		(
	Anesthesiologist Modifiers	
AA	Performed by anesthesiologist	
AD	Medical supervised by physician; more than 4 concurrent anesthesia procedures	
QK	Medical direction of 2-4 concurrent procedures (cases happening at the same time)	
QY	Medical direction of one CRNA by an anesthesiologist	
	CRNA Modifiers	
QX	CRNA service: with medical direction by physician	
QZ	CRNA without medical direction	
	Monitored Anesthesia Care	
QS	MAC (monitored anesthesia care)	
G8	Monitored anesthesia care (MAC) for deep complex, complicated, or markedly invasive surgical procedures	
G9	Monitored anesthesia care for patient who has history of severe cardiopulmonary condition	

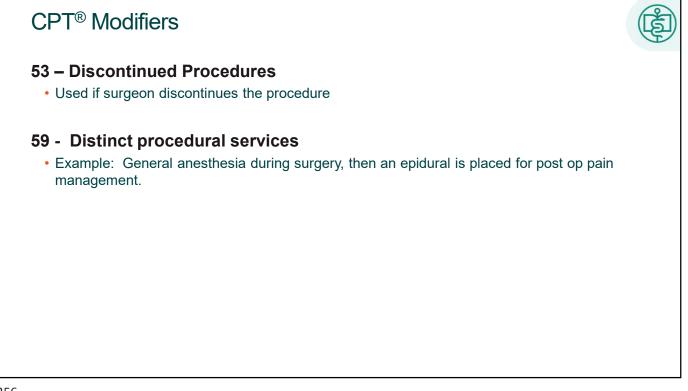

### **Coding Concepts**

- Only one anesthesia code is selected
- Exception anesthesia add-on codes
- Example: +01968 Anesthesia for cesarean delivery following neuraxial labor analgesia/anesthesia
- Report most extensive or most complex
- Use total anesthesia time for all procedures

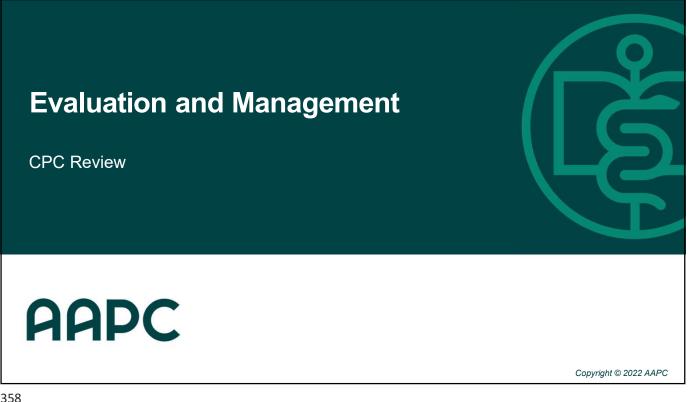

355

### **Coding Concepts**

### **Additional Anesthesia Modifiers**

- 23 Unusual Anesthesia
- 53 Discontinued Procedure
- 73 Discontinued Procedure prior to anesthesia administration
- 74 Discontinued Procedure after to anesthesia administration

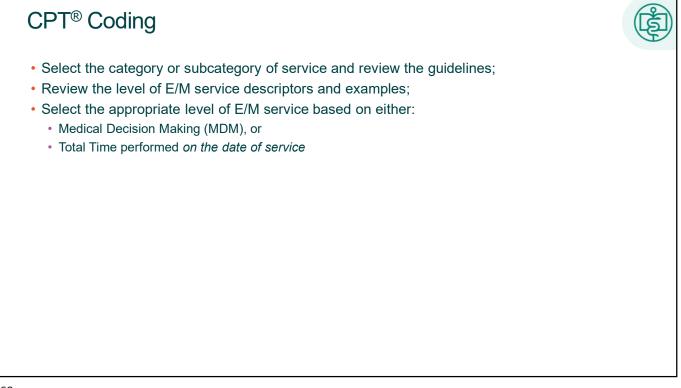

### ICD-10-CM Coding

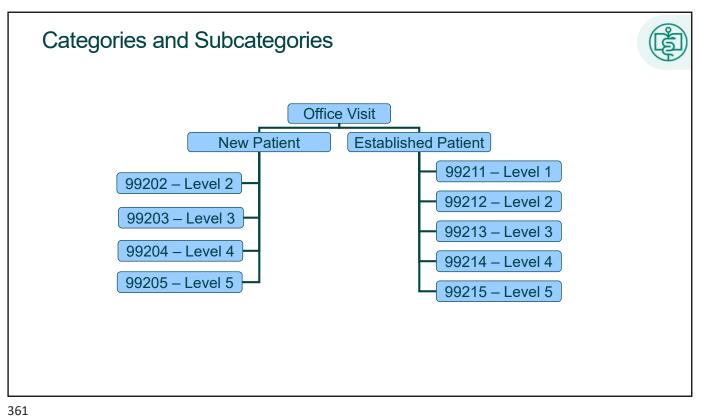

### Signs and Symptoms

- · Code only if no definitive diagnosis is stated
- · Routinely associated with a disease process should not be coded separately

359

# New vs. Established Patients

### **New Patient**

• Patient who has not received any professional services from the physician/qualified health care professional or another physician qualified health care professional of the **exact** same specialty **and subspecialty** who belongs to the same group practice within the past 3 years.

### **Established Patient**

• Patient who HAS received services in the past 3 years

### New vs. Established Patients

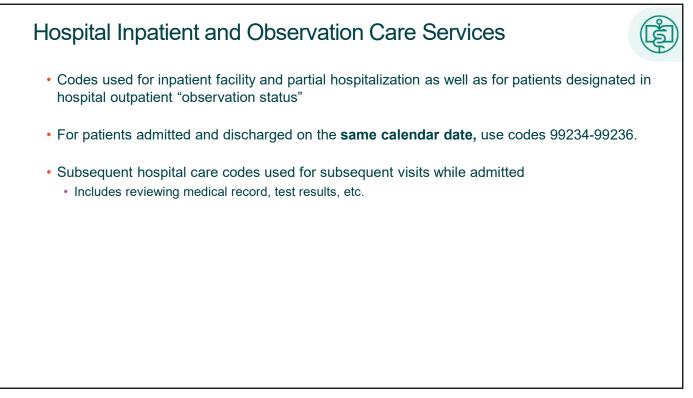

• If a physician/qualified health care professional is **on call** or **covering** for another physician/qualified health care professional, the patient's encounter will be classified as it would have been by the provider who is not available.

363

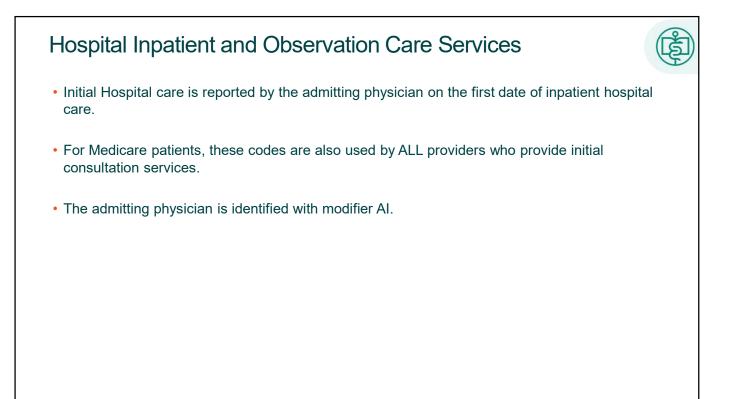

### Office or Other Outpatient Services

- Provided in the physician's office or other outpatient clinic or ambulatory facility
- New patient
- Established patient

## Hospital Inpatient or Observation Discharge Services

- Codes are based on time
- Includes time spent with the final exam, paperwork, writing prescriptions, talking with patient's family, etc.
- Parenthetical notes
  - How to code for concurrent care on the discharge date
  - Discharge of a Newborn see code 99238 or 99463

367

### Consultations

### Consultations

• Service provided by a physician whose opinion or advice regarding evaluation and/or management of a specific problem is requested by another physician or appropriate source

### Divided by location

Three Rs to meet consultation criteria

### Consultations

### **Medicare:**

- Office Consultations
  - · Report with new and established patient codes
- Inpatient Consultations
  - Report with initial hospital care codes for the first encounter regardless if performed by the admitting physician.
  - Use Modifier AI for the Principal Physician of Record

### **Emergency Department**

- Does not distinguish between new/established
- Facility must be hospital-based and available 24 hours a day, 7 days a week
- Physician direction of EMS emergency care, advanced life support
- Services are selected based solely on Medical Decision Making.

### **Critical Care Services**

- Critical care is dependent on patient status, not patient location.
- "A critical illness or injury acutely impairs one or more vital organ systems such that there is a high probability of imminent or life-threatening deterioration in the patient's condition."
- Time based service
- Some services are included in critical care. Pay close attention to the list of services in the Critical Care guidelines.
  - Any service NOT listed in the guidelines CAN be billed separately.
  - The time for performing these carved out services is not included in critical care.

371

Critical Care Services	(B)
<ul> <li>Services provided in a critical care unit to a patient who is not considered critically ill are reported with other E/M codes.</li> <li>Guidelines contain instructions for coding <ul> <li>Pediatric Critical Care</li> <li>Neonatal Critical Care</li> </ul> </li> <li>Critical Care and other E/M services may be coded on same date by the same provider.</li> </ul>	

# Critical Care Services Billing is based on location, time and patient age: • Inpatient • Birth to 28 days – billed per day – 99468, 99469 • 29 days to 24 months – billed per day – 99471, 99472 • 2 years to 5 years – billed per day – 99475, 99476 • 6 years and older – billed by minutes – 99291, 99292 • Outpatient • Any age - 99291, 99292

373

# Critical Care Transport **Event Series Series Constraints of the series of th**

# <section-header>Nursing Facility Services • Oursing Facility Services • Nursing facility • Psychiatric residential treatment center • Divided into Initial and Subsequent **Sursing Facility Discharge**• Similar to hospital discharge – instructions for care, prescriptions, etc.

375

# Home or Residence Services Seen in home by physician • Home may be private residence, temporary lodging, or short-term accommodation • Also includes assisted living facility, group home, custodial care facility or residential substance abuse facility. Separated by new and established patient

# **Prolonged Services**

### **Prolonged Services**

- Direct patient contact or without direct patient contact
- Settings are office/outpatient and inpatient
- Most are add-on codes

### 377

### **Standby Services**

- Used to report time when a provider is on standby at the request of another provider
- Only report for more than 30 minutes duration
- Reported with additional units for each additional 30 minutes
- Do not report if the period of standby results in the performance of a procedure

## Case Management & Medical Team Conference

### **Case Management Services**

• Anticoagulant Management - Deleted

### **Medical Team Conference**

- Requires three healthcare professionals
- Divided by direct contact or without direct contact

### **Preventive Medicine Services**

- · Two sets of codes: new or established
- · For patients who are not ill, but to prevent future illness
- Extent of service will depend on patient age and risk factors
- If a problem is encountered that is significant to require additional work beyond that of the preventative visit, the appropriate office/outpatient code (99202-99215) should be billed with modifier 25 added.

381

### Counseling Risk Factor Reduction and Behavior Change Intervention

- · For patient without symptoms or established illness
- · No distinction between new and established patient
- Preventive Medicine, Individual Counseling
- Behavior Change Intervention
- · Preventive Medicine, Group Counseling

## Non-Face-to-Face Physician Services

### **Telephone Services**

- Must be provided by a physician
- · Based on amount of time
- Patient must be established

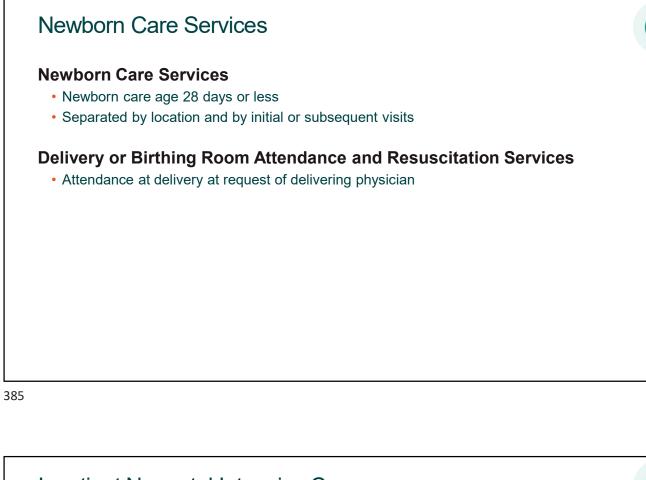

### **On-Line Medical Evaluation**

- Reported only once for the same episode of care during a 7-day period
- Must be provided by a physician

383

### Special E & M Services

- Basic Life and/or Disability Evaluation Services
- · Work Related or Medical Disability Evaluation Services
- Specific guidelines under each code

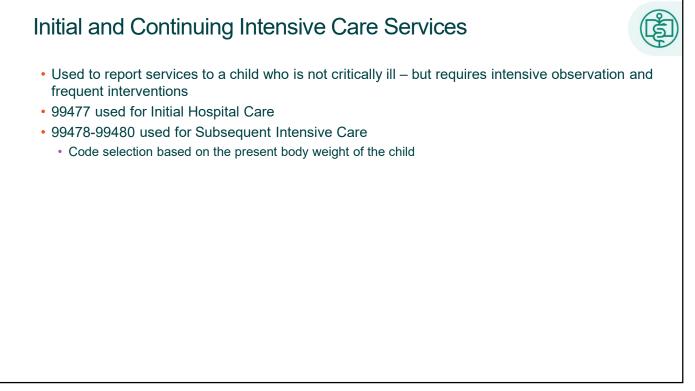

- Pediatric Critical Care Patient Transport
- Inpatient Neonatal and Pediatric Critical Care
- Initial and Continuing Intensive Care Services

### Inpatient Neonatal and Pediatric Critical Care Services

### Defined by age of patient:

- Neonates 28 days of age or less
- Infant or young child 29 days through 24 months of age
- · Young child two through five years of age

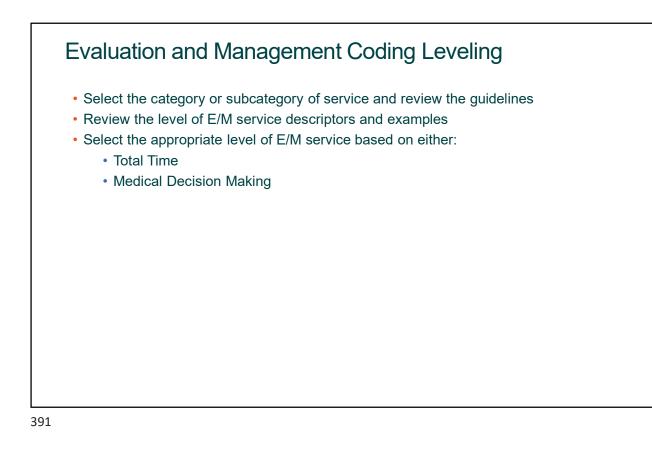

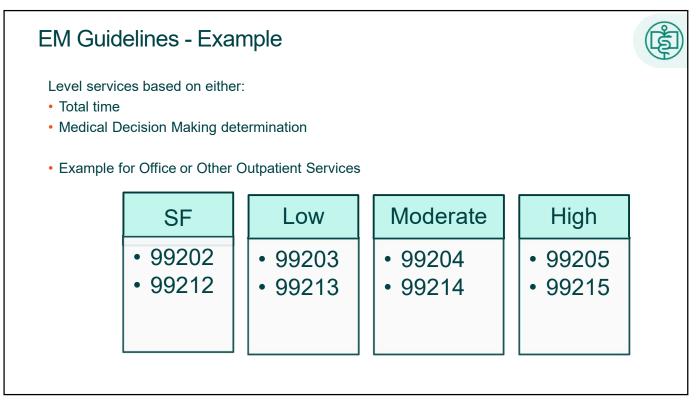

### Chronic and Complex Chronic Care Coordination

- 2 or more chronic illnesses requiring coordination of care among multiple disciplines
- · Reported by the provider overseeing the care plan and coordination
- Reported only once per month
- Code selection
- Time spent overseeing
- · Whether a face-to-face encounter occurs

# <section-header><section-header><section-header><section-header><section-header><section-header><section-header><list-item><list-item><list-item><list-item><list-item>

### **Total Time Defined**

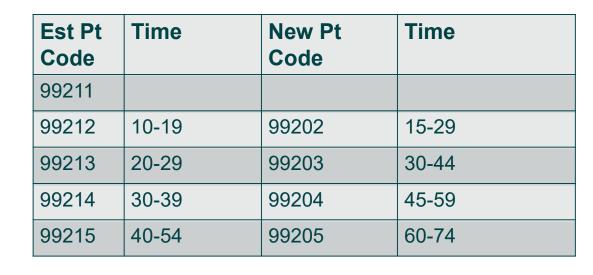

- Preparing to see the patient (eg, review of tests)
- Obtaining and/or reviewing separately obtained history
- Performing a medically appropriate examination and/or evaluation
- · Counseling and educating the patient/family/caregiver
- Ordering medications, tests or procedures
- Referring and communicating with other health care professionals (not separately reported)
- Documenting clinical information in the electronic or other health record
- Independently interpreting results (not separately reported) and communicating results to the patient/family/caregiver
- Care coordination (not separately reported)

Do NOT Count time spent on:

- Performance of other services separately reported
- Travel
- Teaching that is general and not limited to discussion that is required for the management of a specific patient

393

### EM Example based on Total Time Office or Other Outpatient Services

### **Prolonged Services**

## 99417 – Prolonged OUTPATIENT

Used in conjunction with 99205, 99215, 99245, 99345, 99350, 99483

Do NOT report on the same date of service as 90833, 90836, 90838, 99358, 99359, 99415, 99416

Do NOT report for any time unit less than 15 minutes

### 99418 – Prolonged INPATIENT OR OBSERVATION

Used in conjunction with 99223, 99233, 99236, 99255, 99306, 99310

Do NOT report on the same date of service as 90833, 90836, 90838, 99358, 99359

Do NOT report for any time unit less than 15 minutes

395

### Prolonged Service – Example

Total Duration of New Patient Office and Other Outpatient Services (use with 99205)	Code
Less than 75 minutes	Not reported separately
75-89 minutes	99205 X 1 and 99417 X 1
90-104 minutes	99205 X 1 and 99417 X 2
105 minutes or more	99205 X 1 and 99417 X 3 or more for each additional 15 minutes

Total Duration of Established Patient Office and Other Outpatient Services (use with 99215)	Code	
Less than 55 minutes	Not reported separately	
55-69 minutes	99215 X 1 and 99417 X 1	
70-84 minutes	99215 X 1 and 99417 X 2	
85 minutes or more	99215 X 1 and 99417 X 3 or more for each additional 15 minutes	

ŝ

# Medical Decision Making (MDM)

- Medically appropriate history
- Medically appropriate exam
  - Determined by the Physician/Healthcare provider
- Not counted in the level for office and other outpatient

397

	Number and Complexity of Problems Addressed	
Minimal	1 self-limited or minor problem	
Low	2 or more self-limited or minor problems; or	
	1 stable chronic illness; or	
	1 acute, uncomplicated illness or injury; or	
	1 stable, acute illness; or	
	1 acute, uncomplicated illness or injury requiring hospital inpatient or	
	observation level of care	
Moderate	I or more chronic illness with exacerbation, progression, or side effects of	
	treatment; or	
	2 or more stable chronic illnesses; or

  - Anatomic site
  - Type of procedure
  - Number of body regions involved

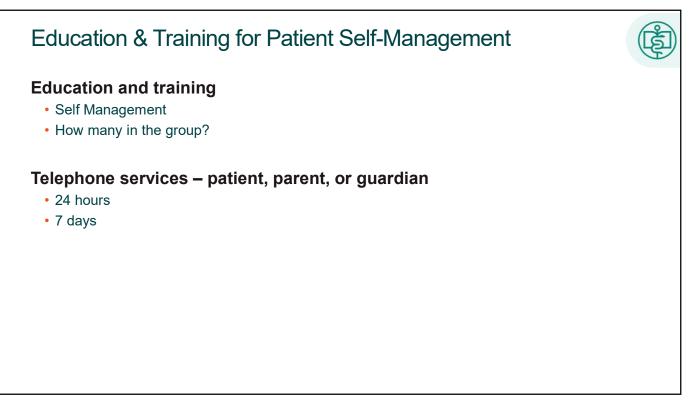

### **Therapeutic Procedures**

425

### **Medicine Section**

- Acupuncture Face-to-face time
- Osteopathic Manipulative Treatment (O.D.)
- Chiropractic Manipulative Treatment (CMT)

427

### **Online Medical Evaluation**

- Online encounter or other electronic communication mode of the medical kind
- Includes all services provided

# Moderate Sedation Neither local nor general anesthesia. Patient is still conscious and able to respond to verbal commands but is in a drug induced depression of consciousness. Patients are breathing on their own and not intubated. Code concepts include: Age of the patient Service provider Time If the provider also performs the moderate sedation, an independent observer is required.

429

## Special Services, Procedures and Reports

### **Miscellaneous services**

- 99024 "tracking"
- Mandatory on-call hospital personnel
- Patient encounters outside the normal posted business hours or special circumstances at the request of the patient.

# Home Health Procedures/Services

- Patient's residence
- Assisted living apartments
- Group homes
- Nontraditional private homes
- Custodial care facilities or schools

## Ophthalmology

- Services under General are broken out by new or established patient and type of service (limited or comprehensive)
- Special Ophthalmological Services include:
  - Testing (ex. Refraction, visual fields, glaucoma evaluation, etc)
  - · Prescription and fitting of lenses
  - · Assessment of eye muscles
  - Contact lens services
  - Spectacle (eyeglasses) services
- Ophthalmoscopy

### **Exam Registration**

### www.aapc.com

You will receive a confirmation email including:

- Exam date and location of exam
- Proctor's name and telephone number
- Start time

### Arrive at the exam early

- · Allow for time to find a seat
- Arrange your books and supplies
- Book check

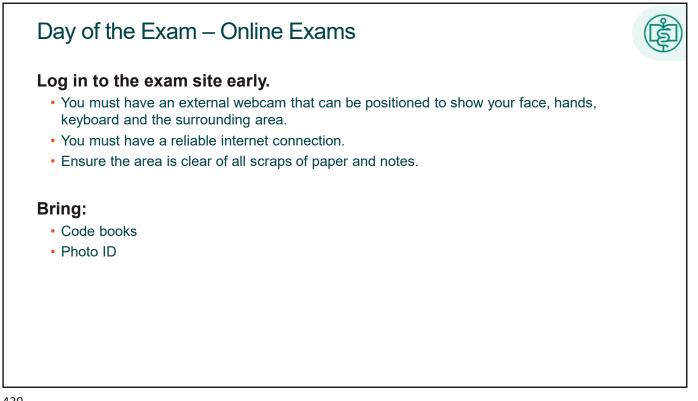

437

# Day of the Exam – In-Person Exams

### Arrive early

### Bring:

- Code books
- Photo ID
- #2 pencils and eraser
- NO scrap paper (not allowed)
- Eat a healthy breakfast
- Bring light snacks and water (avoid loud and crunchy snacks)
- · Bring a light jacket or sweater

439

### During the Test

- · Listen carefully while proctor reads instructions
- Stay relaxed and confident
- Scan the entire test
- Answer the easiest first
- Read all choices before answering
- Pace yourself
- Answer every question

# Exam Completion

- Exam results released within 5-7 business days after AAPC receives the exam package from the proctor
- My AAPC area on the AAPC website
- Official documents mailed to you
- Exam results may NOT be released over the telephone
