Coding and Billing Updates →

What are the latest changes? Get the facts, fast. Fourth quarter updates to [ICD-10-CM](#) and [HCPCS Level II](#) code sets and Medicare payment systems happen every year but, like the weather, we're often caught by surprise. And what a difference a day makes! Proper coding on Sept. 30 may not be proper coding on Oct. 1.

AMA Issues More COVID-19 Vaccine Codes →

The American Medical Association's (AMA's) CPT® Editorial Panel has released eight new [COVID-19](#)-related codes to report a new formulation of the Pfizer vaccine, a Moderna booster vaccine, and a Pfizer booster using either the new or old formulation. These codes are in addition to the [four new CPT codes](#) released last month and the many other existing [COVID-19](#)-related codes created in the past two years.

Coding Ovarian and Other Gynecologic Cancer Treatments →

Coding for gynecologic oncology procedures can be complicated. Procedure codes differ depending on whether the procedure is laparoscopic versus open and whether there is lymph node sampling or modifier usage. It's important for medical coders to know the differences in procedures to ensure proper reporting.
