

Revenue Cycle Management Syllabus

Prerequisites: None

Clock Hours: 5 (Note: 5 clock hours accounts only for time spent in the online course and does not include time spent outside of the course or study time. Study time will vary widely per individual.)

Course Length: You will have access to this course for one year.

Class Hours: Days/Times Per Week: This course is asynchronous and does not require class meetings.

Certificate of Completion Issued: Yes

Course Description: The students will learn the end-to-end credentialing process of all providers for payers including the application process and tracking processes for maintaining the credentialing over time. This course is valuable for anyone interested in the field of credentialing.

Course Objectives:

- Identify what is expected of a revenue cycle manager
- Describe the processes within revenue cycle management
- Outline key performance indicators and processes for successful revenue cycle management

Course Content:

- Revenue Cycle Manager: The Position
- The Revenue Cycle
- Managing the Revenue Cycle
- Soft Skills for the Revenue Cycle Manager
- Final Exam

Methods of Evaluation:

The instructional methods used include reading assignments, interactive lectures, and a final exam. To receive a certificate of completion, students must successfully complete the course within the allotted time frame.

Successful course completion includes:

- A passing score of 70% or higher on the final exam

No reduced hours in the course or tuition discount for previous education or training will be granted. This course does not qualify for a credential.
